

European Style for Australian Homes

Add a little European style to your next project

The Microestil® Difference

Microestil is a premium European microcement brand crafted for seamless architectural surfaces. With a commitment to material excellence and minimalist aesthetics, Microestil offers a versatile, high-performance solution for a wide range of interior and exterior environments.

Exclusively imported into Australia by Choice Building Products, Microestil combines European refinement with the practicality demanded by today's designers, builders, and applicators.

Engineered for efficiency and ease, Microestil delivers durable performance and exceptional value beyond its premium finish—all while supporting eco-conscious practices through low Volatile Organic Compounds (VOCs), minimal material waste, and a clean, demolition-free application. Whether enhancing residential homes or creating impact in commercial spaces, Microestil empowers you to transform surfaces with timeless beauty, texture, and durability.

What is Microcement?

Microcement is an ultra-thin, cement-based coating that delivers strength, a seamless finish, and a modern aesthetic to virtually any surface.

Ideal for walls, floors, bathrooms, kitchens, and more, microcement creates an uninterrupted, joint-free finish that enhances both residential and commercial environments.

Durable, versatile, and low maintenance, it's the ultimate choice for achieving minimalist, sophisticated designs.

*Seamless results.
Versatile by design.
Enduring quality, lasting value.*

Why Microestil®?

Choosing Microestil means selecting a superior surface solution backed by performance, design flexibility, and European quality.

Ultra-Thin Application

Customisable Colour Range

Seamless Finish

Strong Adhesion

Interior & Exterior Use

Wet Area Certified

Eco-Conscious

Microestil® Possibilities

Microestil's versatility opens the door to creative possibilities across a wide variety of spaces.

It is ideal for:

- ✓ Residential interiors & exteriors
- ✓ Commercial fit-outs & hospitality spaces
- ✓ Bathrooms, wet areas & kitchen splashbacks
- ✓ Feature walls, floors, furniture & bespoke installations
- ✓ Swimming pools & pool surrounds

Microestil® Systems

Engineered systems, tailored performance.

Microestil offers six purpose-built microcement systems, each designed for specific applications to ensure optimal durability and aesthetic excellence.

Our systems are supported by technical documentation and step-by-step guidance for easy, confident application.

WallMaster

Lightweight, smooth system for vertical interior surfaces, designed for seamless finishes and easy application.

FloorMaster

High-performance system for interior floors, designed for abrasion resistance and everyday durability.

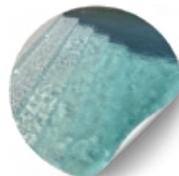

HydroShield

Premium water-resistant system for water contact areas such as showers, designed for chemical resistance and surface protection.

HydroTuff

A tough, breathable system ideal for humid or high-moisture areas, built to withstand expansion, contraction, and moisture transfer.

PoolShield

Specialised for pools and submerged applications, offering reliable resistance to chlorine and continuous immersion.

CraftCoat

A flexible system for bespoke, artistic applications—including curved surfaces, custom furniture, and sculptural elements.

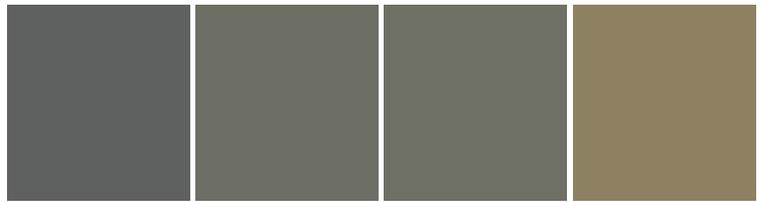

Microestil® Colour Palette

Crafted colour, endless possibilities.

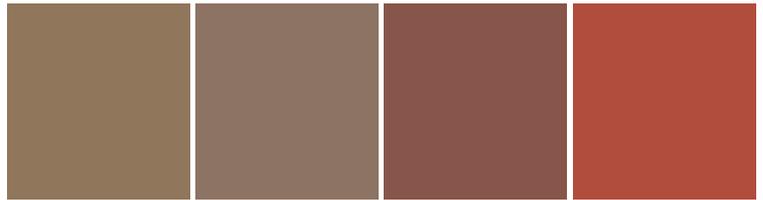

At the heart of Microestil is a refined palette of 16 core pigments, each available in 10 shade variations, offering the freedom to fine-tune colour depth and tone. From soft, subtle neutrals to bold, expressive colours, our palette integrates seamlessly into any architectural or interior scheme.

Formulated to complement natural materials and contemporary design, our pigments deliver colour accuracy, surface performance and UV stability across all systems. For unique projects, custom colours can also be developed in collaboration with your Microestil applicator to best suit your design vision.

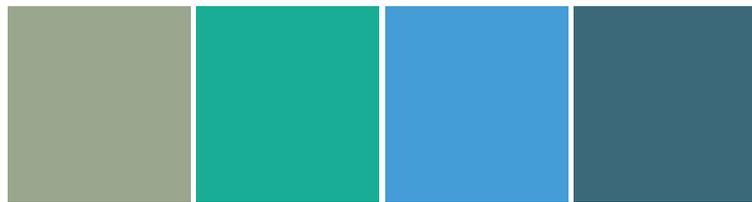

Every space deserves a colour story that's as intentional as its design.

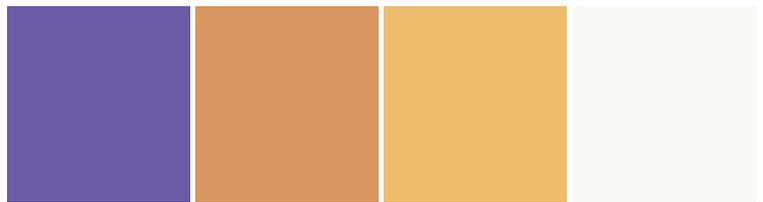

Eclipse
MCT-100 *Solace*
MCT-120 *Veil*
MCT-140 *Dune*
