Standard
RACKS

We are manufacturers of custom steel racks and standard metal containers for material handling. With production capacity of up to 9 types of racks on an assembly line, shipping 400 racks per week.

Standard RACKS

Is the biggest, reliable company of industrial racks in the north of Mexico.

Specialized on:

- **Engineering and Design**
- **Manufacturing**
- **Modifications to metal Containers**
- **Prototypes**
- **Repairement**

About Us

Standard Racks is a 100% Mexican company that belongs to Rotulen de México S.C. de P. de R.L. de C.V. We have more than 15 years of experience working on manufacturing, design improvements and repairment of steel racks, dollies carts, storage materials racks and specialized steel containers for automotive, agricultural and metal-mechanical industries in the national and international market.

Our DUNS number is 815216155

Our REPSE number is AR445/2021

ROTULEN

Machinery & Equipment

We operate under the highest quality standards.

Our facility is about 10,600 m² whereof 4,500 m² are indoors divided by Facility 1 and Facility 2, and we're still expanding.

Paintshop

Our painting process is made with GRACO and SAMES KREMLIN machines.

Production Capacity

Our production capacity is about 400 containers per week, which is equivalent to more than 150 tons of steel being processed by 40 welders per shift.

Engineering and Design

Within our engineering and design department we use the latest software generation, namely SolidWorks and AutoCAD and Inventor Autodesk, to fulfill any requirement from our clients.

Metrology

We make 3D scans to check and demonstrate the required dimensions through an 3rd party.

Machinery

Equipment:

- 40 Mig welding machines.
- 3 Fork-Lift trucks.
- 3 Foil stamping machines (8,10,12 ft, máximum 220tn).
- 2 Sheet shearing machines (10 y 12 ft max ½ in width).
- 2 Manual punching machines.
- 2 Cutting Metal Machines (angled, Steel slab and channel cutting 150 tn).
- 2 Wire mesh welding machines

Laser
Plasmatherm

Plasmatherm
Cutting machine

- 8 Handshaws.
- 2 Cutting bandsaws (Amada CNC).
- 1 Cutting bandsaws (Hydmec CNC)
- 1 Cutting bandsaws Marvel.
- 1 Cutting bandsaws Ron Fu
- Paint cabin
- 2 Oxygen cutting equipment
- 3 Plasma cutting machine
- 1 Plasmatherm cutting machine
- 1 CNC Laser beam machine 1,500 W
- 1 Painting machine Electrostatic y Airless.

Painting machine
Electrostatic and Airless

CNC cutting bandsaws.

Press Brake of 14' y 220 tons CNC.

Sheet shearing Cincinnati max cal 3/8 x 10' of sheet metal.

Wire mesh welding machine.

Quality Standards

ISO 9001: 2015

We are certified under ISO 9001:2015.
We are registered in the national importers and exporters registry, CANACINTRA, CANACO and AIERA.

AWS: D1.1:2020

Our welders are certified on FCAW (Flux Cored Arc Welding) under AWS (American Welding Society) code.

American Welding Society

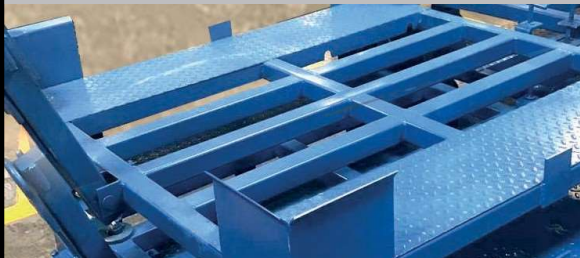

Through a 3rd party-owned laboratory, we carry out destruction and vibration tests to ensure the quality desired by our clients.

Mission

To provide the best solution and high-quality products to each one of our clients by offering a personalized service and competitive costs.

Vision

To gain a worldwide leadership on the manufacturing of steel structures and to be the best choice available in the market.

Human Talent

Teamwork

We operate in an environment of trust, honesty, integrity, commitment and responsibility with our clients. We strive to continuously innovate and improve our services to provide better solutions.

Highly Skilled Workers

With 15 years of experience in the industry, our workers are certified.

Commitment to provide the best service

We are committed to identify and fulfill our clients' requirements.

Our Services

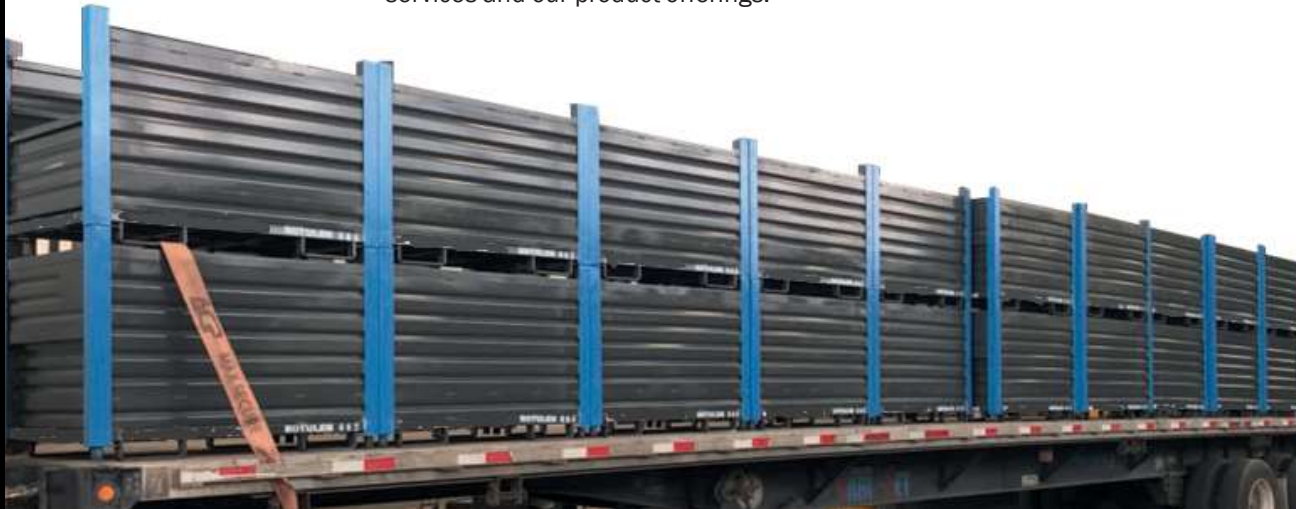

Our services include engineering, design, manufacturing, modifications to metal containers and repairment of steel racks for automotive, agricultural and metal-mechanical industries.

Logistics

We supply our products to companies and industries in North America.

We are open for the opportunity to work with you and to give a reply for any question you may have about our services and our product offerings.

CHAIN OF COMMAND

- Mario González (CEO & Founder)
- Ricardo Morales (Plant Manager)
 - 40 Welders.
 - 10 Paintjob & Finish.
 - 10 Cut, Press & Mesh.
 - 2 Quality Engineers.
 - 3 Production Supervising Engineers.
 - 3 Forklift Driver.
 - 2 Engineering & Design Specialists.
 - Cecilia Lozano (VP of Sales)
 - Daniel Lejtman (Marketing)
 - Ana Martínez (Invoicing)
 - Roberto Martinez (Supply Chain & Inquiries)
