COMMON QUESTIONS ABOUT YOGA

I'm Not Flexible—Can I Do Yoga?

Yes! Many people think that they need to be flexible to begin yoga. Come as you are and you will find that yoga practice will help you become more flexible. This newfound agility will be balanced by strength, coordination, and enhanced cardiovascular health, as well as a sense of physical confidence and overall well-being.

How Is Yoga Different From Other Kinds of Fitness?

Yoga is unique because it connects the movement of the body and mind to the rhythm of our breath. Connecting the mind, body, and breath helps us to direct our attention inward practice. Through this process of inward attention, we learn to cultivate rather than task a goal to be completed. Your body will most likely become much more flexible by doing yoga, and so will your mind.

Excerpt from 38 Benefits of Yoga by Timothy McCall M.D.

YOGA – SPRING CLASSES

Yoga Flow – fundamentals of yoga will be introduced through repetition of exercises. Students are encouraged to learn movement variations appropriate to their individual body and skill level.

Adapted Yoga – offers alternating approaches between standing/seated poses and mat work.

Yoga for Athletes – with its dynamic pacing and variety of poses, this is the perfect class for student athletes between sports seasons. (*Spring 2019*)

Participants should wear comfortable clothing that allows for freedom of movement and bring a yoga mat, block, and strap.
