The complete Laundry Equipment **AMC** provider

Dry & Wet Cleaning Laundry

Company Profile

Sri Meghna Enterprises established in Hyderabad in the year 2004. We are the distributors of comprehensive range of international standard Laundry detergents and chemicals and stain removing agents. And we are emerged as good distributor among laundry detergents and chemicals supplies. We are suppliers these products to all hotels, restaurants, Pharma companies and hospitals.

Apart from our laundry chemicals we are also dealing with wide range of house keeping chemicals and guest amenities which cater the needs of hotels, restaurants, corporate offices, showrooms, dinning halls and hospitals with our brand name 

Taking a further step we have established our sister concern company  This is started by a group of qualified engineers who are well known the needs of laundry industry. The basic idea is to provide high quality, cost effective equipment at a reasonable cost to the clients. We have our own manufacturing unit in hyderabad with all updated modern infrastructure we manufacture all full range of laundry and garment machines including boiler and softner. We deal and supply all genuine spares related to laundry and garment equipment in reasonable price.

Adding to that we have our other sister concern company  which provides the maintaince services to the laundry equipments. For this we have well versed and trained staff with rich and good experienced in the field of laundry. In this we provide AMC'S and other services according to the client requirements and convenience. Years of rich experience in this field helps us in offering the right kind of project to the clients. And also we asist the existing Laundromats to modernize their plants. This we will achive by undertaking comprehensive study of the existing process and suggest suitable methods to improve their efficiency.

We have other sister concern company  which provide the laundry services to the hotels, hospitals, restaurants, guest houses and spa's. We give good quality and time bound services in our own transport services with competitive price in the market. We give training to people who deal with our clean tech equipment.

We meghna has got high quality and dedicated manpower that place fabulous role in ensuring the growth of company and this is the success mantra of our organization growth. We have gained rich dividends and good will for the responsible supply and customer care. We prefer to achive goodwill by delivering the best market value products and services. And our vision is to establish itself as the largest and most respectable company in southern states of india by catering the needs of all supplies and services related to hotel, hospital, commercial laundries and institutions.

Capacity
15, 25, 35, 50, 60 Kgs

Washer Extractor

- Feather touch, programmable computer control system which is fully automatic, safe, stable and shock proof.
- The latest world class suspension structure is adopted to reduce shock replace the original shock design by liquid pressure buffer with springs.
- This will ensure an ideal shockproof effect even on higher floors.
- The drum without compartment and a single door make loading and unloading easier reduces labour work load.

Washing Machine (Vertical Front Loading)

- Epoxy coated hot dipped galvanized iron bottom frame and stainless steel machine.
- Sampling port with toughened glass provided on the main door.
- High load capacity.
- Manual and automatic mode for selecting the programme. Equipped with fully automatic control panel Reduction pulley and V-belt drive mechanism.

Capacity
15, 25, 35, 50 & 60 Kgs

Capacity: 20 & 30 Kgs

Capacity
25,35,50,75,100 &150Kgs

Washing Machine (Horizontal Top Loading)

- Stainless steel for control panel, outer drum end plates, inner basket and safety guards.
- Smooth and soft drive ensured by gear box with pulley.
- Easy to operate fully automatic panel. Better loading ratio as the door height is above the center of the drum.
- Hot forged end flange shafts with long life Water level can be controlled by calibrated level indicator.
- Quick release of water by cast iron drainage ensures minimum maintenance.

Hydro extractor (Direct Drive)

Capacity
25, 35 & 50 Kgs

Capacity
10 Kgs

- Both inner and outer drums are of stainless steel
- Inner Basket is mounted on the motor
- Door locks provided
- Continuous current braking system to ensure simple and safe operation.
- Suspended motor with thermal and anti humidity insulation.

Tumble Dryer

- Inner stainless steel basket.
- Logic programmer with auto controls.
- Close grain cast iron pulley drive with V belts.
- Mineral wool held by fine aluminum sheet backing on loaded spring hooked ties ensures double insulation.
- High load capacity ratings and faster drying time.
- CMC designed stainless steel paddle fitted to inner stainless steel basket ensures smooth tumbling effect.

Capacity
15, 25, 35, 50 & 75 Kgs

Flat Work Ironer Electrical/Steam/Gas

- It is a high speed, energy saving, compact size, well built, user friendly machine with safety and reliability.
- Both temperature and the speed can be controlled automatically according to the different materials ironed.

These Machines are compact and occupy small area. It is one of the most efficient machines with lowest power consumption. The Ironing Chest is nickel plated to protect from rusting. The moving chest is self aligning. Equipped with adjustable automatic / manual timer controller Padded roller, Piston supported chest, Powerful suction to remove excess moisture.

Flat Bed Press

Flat Bed Press Suitable for Table Covers, Pillow Covers, Napkins, Kitchen Linen and staff uniform. The suction feature, quality padding and teflon lining on heat guarantee fine finishing

Oil Fired /Eco fuel Boilers

These machines are equipped with several safety features like water level controller, pressure controller, Temperature controller, Pressure releasing valve, Safety Alarms, Safety Lockout features and visual indicators. The inner shell is constructed with strong seamless Pipes and fully tested for maximum Pressure holding capacity to ensure operator safety. Fitted with Imported Eco flame Burners and control system. In other model we can save fuel cost by 50% of the regular cost by using eco fuel.

Electrical Steam Generators

These machines are equipped with several safety features like water level controller, pressure controller, Temperature controller, Pressure releasing valve and visual indicators Fitted with Stainless Steel immersion heaters that can be easily replaced. These are very compact and easy to install and maintain.

Perc Dry - Cleaning Machine

It is fully automatic, all bottom tanks are made of stainless steel. There are three solvent storage tanks and one distillation tank. Out of three one is for clean, one is for dirty, one is for working solvent to avoid solvent mixing. It has high quality cool recycle working system, can save about 99% solvent. Since it is working within a closed environment, no pollution to the air and keep the room fresh. Fluff collector uses nylon bag on the filter to prevent blockage. High-speed fan can speed up the drying and cooling rate. The machine comes with in-built chiller. Consumption of perc. will be very less in the dry cleaning cycle.

Spotting Table With Guns

- One air/steam heat proof gun.
- Two cold spotting guns.
- Two SS bucks with suction.
- Other models have in built compressor in addition to the above.

About us

The complete Laundry Equipment **AMC** provider

MAGNUM technologies been established as a service providing company with well- versed people to the laundry industry. As of now there is a great need of reliable maintenance service providers to the laundry industry. The idea is to establish this company is to fill the gap between equipment and owners in terms of maintenance. The rich, good experience and knowledge over 18 years in the field of commercial/hospitality laundry has assisted to put forward step to launch this company. With the technical support of managing partner Mr . T. Ramesh the company has got satisfied customers in both Telangana and Andhra Pradesh states.

COMPANY STRATEGY:

PURPOSE: To be the leader in the maintenance services company by providing enhance service relationship and profitability.

VISION: To provide quality and time bound services that exceeds the expectations of our esteemed customers.

MISSION STATEMENT: To build long term relationship with our customers and minimize the equipment breakdown time.

CORE VALUES: We believe in treating our customers with respect and faith. We grow rough by providing time bound services to the customers.

GOALS: Southern region expansion in the field of service Sector Company by develop a strong base of customers. To build good reputation in the field of service sector and become a key player in the industry.

SCOPE OF WORK: Magnum Technologies services undertakes all maintenance works of the equipment related to laundry. And provide AMC services to track and maintain the condition of the equipment healthier. We deal and supply the genuine spares as per the customer requirement.

IMPORTANCE OF MAINTENANCE: It is known term used to describe various processes that are employed to keep the equipment in proper working order. A properly structured preventive maintenance schedule/programme will minimize the breakdowns Of the equipment which reflects to increase the machine efficiency.

ADVANTAGES OF AMC :

1. Saves unexpected repairs and voids.
2. Guanine spares with reliability.
3. Uniform schedule service to your equipment.

TYPES OF SERVICES OFFERED:

1. Complaint maintenance Services.(CMS)
2. Annual maintenance contract service (AMC).
3. We undertake / manage the laundry for those who have in house laundry in their property/ organisation but wish to out-source the services.

Maintenance offered to the following Machines

1. Washing Machines
2. Hydro extractor
3. Tumble dryer
4. Calendering machine
5. Laundry Boiler
6. Vaccume Ironing Table
7. Water softner
8. Drycleaning machine.

INK STAINS REMOVER

To be applied directly on the ink stains drop by drop till stains gets enlarge. Simutaniously squeeze the stain with discardwhite cloth to absorb the stain. Apply again till the stain gets diluted. Still the stain exists apply till maximum gets dissolved, then put for washing with in chlorine bleach (whites) or in peroxide bleach (color).

BLOOD STAINS

Wet the stained area, then apply S2 drop by drop till the stain gets vanishes, then wash the surface of the fabric with detergent solution. Use gloves while handling stain as the main ingredient is acid based .

TEA , COFFEE & WINE

Apply S3 on the stained area add little luke warm water then brush it with tooth brush, repeat the same practice, then put the garment for washing.

GREASE & OIL STAINS

This can be used on white surfaces to remove dye stains & iron stains . Do this process with hot water - apply aid bleach .Do this repeatedly.

HOUSE KEEPING & KITCHEN HYGIENE PRODUCTS

Bactericidal Foam Cleanser

Product Description

A spray on / wipe off bactericidal foam cleaner. **Bactericidal Foam Cleanser** contains an effective mild acidic descalant and soil emulsifier providing highly efficient washroom maintenance, whilst imparting excellent citrus lime fragrance which counteracts malodour by rapid bactericidal control action leaving the 'just cleaned' odour. This high performance, effective cleaner is formulated for tiles, taps and general washroom surfaces providing efficient limescale and limesoap scum removal. **Bactericidal Foam Cleanser** employs unique detergent technology providing high-level soil emulsification preventing redeposition of dirt on the surfaces being cleaned. **Bactericidal Foam Cleanser** also provides rapid removal of water marking from taps, tiles, mirrors, glass and plastics.

M1

Application & Usage

P^H Approx. - 1.5-2.0
50-100 ML in 1 Liter of Water

Bactericidal Multipurpose Cleaner

Product Description

A blend of readily biodegradable surfactants and quaternary compound, perfume and dye, BACTERICIDA MULTIPURPOSE CLEANER is a neutral, bactericidal detergent formulated primarily for floor cleaning. Liquid, BACTERICIDA MULTIPURPOSE CLEANER is suitable for dilution in the conventional way by carefully measuring the amount of product required.

Glass Cleaner

Product Description

A non-abrasive cleaner for glass, laminates, metals and ceramics which evaporates leaving a clean, smear free, shiny surface. It has no vinegar and no ammonia - just a pure formula for a smear free finish. Glass Cleaner passes the Sunshine Test. By utilising a highly volatile alcohol (low hazard at concentrations employed), rapid evaporation and drying is achieved which is a pre-requisite of window cleaning. Glass Cleaner is a pure formula without any technical extras in order to optimise the formulation, whilst completely minimising the potential for window smear.

Application & Usage

pH Approx. 6.0
20-50 ML in 1 Liter of Water

M3

Wood Cleaner

M4

Product Description

A non-abrasive cleaner for wooden frames, door, windows, etc, which evaporates leaving a clean, smear free, shiny surface. It has no vinegar and no ammonia - just a pure formula for a smear free finish. By utilising a highly volatile alcohol (low hazard at concentrations employed), rapid evaporation and drying is achieved which is a pre-requisite of window cleaning. Wood Cleaner is a pure formula without any technical extras in order to optimise the formulation, whilst completely minimising the potential for window smear.

Application & Usage

pH Approx. 6.0
20-50 MI. In 1 Liter of Water

Air Freshener

Product Description

Air Freshener, is a formulated blend of emulsifier and floral pot-pourri fragrance. A liquid air freshener in a non-aerosol, ready to use trigger pack, it may be used to counteract unpleasant or offensive background odours in areas such as smoke-rooms, bars, restaurants, changing rooms, sports halls and in toilets and washrooms.

The regular use of **Air Freshener**, with its distinctive residual aroma, will help to counter the effects of stale air in all these situations. It is fast and effective, economical in use and provides a pleasant countryside fragrance.

M5

Application & Usage

P^H Approx. - 7.0-Neat

Heavy Duty Toilet Cleaner

M6

A concentrated quick acting orthophosphoric acid based cleaner, descaler, bactericide and deodorant. First rate acid lime remover for bathrooms, toilets, shower rooms, baths swimming pools, large kitchens and ovens.

H.D. Toilet Cleaner is also effective for scale removal for stainless steel pasteurizing and other stainless steel dairy equipment. **H.D. Toilet Cleaner** is specifically formulated to ensure removal of scale, stains and all kinds of soiling matter leaving surfaces hygienically clean. Orthophosphoric acid is relatively mild compared with other mineral acids. The usual precautions and remedial measures should be taken when in use. Ferrous metals and copper-based alloys are protected by an efficient inhibitor. **H.D. Toilet Cleaner** dissolves rust leaving a passivated phosphate film on ferrous metals which will resist further rust formation and delay reusing.

H.D. Toilet Cleaner contains a powerful detergent to assist penetration and a pleasant perfume as deodorant. Contains a contact adhesive to ensure adequate time for descaling action on vertical surfaces above water level. Specific recommendations are available on request.

Application & Usage

To Etch Concrete	1:10
Large Surfaces	1:50

Floor Cleaner

Product Description

A bactericidal, heavy duty cleaner for heavily soiled floors and hard surfaces. Recommended for use on modern safety flooring. Also suitable for general cleaning of soiled common floor types.

D1

Steel Polish

Application & Usage

It is a specially formulated cleaner for care of stainless steel. It protects against greases and water splashes and leaves surface with a bright finish. It can be used on stainless steel doors (specially refrigerators and freezer doors) and outside surface of stainless steel equipment. Protects equipment surfaces and increases life. Leaves the surface with a smooth lustre. Non- perfumed. Leaves no taint or smell on cleansed items. Steel Polish sum shiner is a ready to use product. Heavily soiled surfaces should be pre cleaned.

D7

Machine Dish Wash

D10

Application & Usage

A concentrated formulation which contains active caustic for effective saponification of fats and food debris and an effective sequesterant – water softener and destainer. Machine Dishwash Liquid offers sufficient water softening properties to sequester up to 300 ppm of Calcium (CaCO_3) hardness to efficiently work in all hard water areas. Machine Dishwash Liquid provides high level efficient cleaning at minimal detergent concentration, and is suitable for use in conventional spray dishwashing machines. Do not allow contact with zinc, aluminium, brass or galvanized metal.

Usage:

Machine Dishwashing 3 ml per litre of water

Application & Usage

A liquid rinse additive for use in automatic dishwashing machines and sterilising tanks to prevent spotting or streaking and reduce drying time. Suitable for both hard and soft water. Rinse Aid is low foaming and is effective over a range of operating temperatures between 50 - 80°C. Rinse Aid contains a co-solvent to prevent haze and gives good water sheeting effect. It is more readily dispersible, hence faults such as spotting are obviated and it also shows excellent flash characteristics on adding to hot water.

Usage:

D11

CARPET SHAMPOO

D101

Product Description

Shampooing of carpets is a specialized job. The shampoo to be used should be high foaming neutral & safe, concentrated, imparting softness after wash, with oil, grease and dust removing power. Carpet cleaner is a formulation of combined anionic surfactants, fabric conditioner & foam booster. The product produces a copious foam during shampooing. This foam captures and retain dust and dirt which is easily brushed away. Surfactants in the formulation also emulsify oily and greasy soil which is then easily removed. Being a neutral formulation, the Carpet Cleaner synthetic woolen, silken & blends.
