About Us

Star Engineering, where over a decade of expertise in lighting innovation meets your vision. With more than 10 years of experience, we specialize in architectural indoor lighting, sports, dynamic façade lighting, landscape lighting and building automation and control system, transforming spaces with our cutting-edge solutions.

Mission

At Star Engineering, our mission is to provide innovative and transformative lighting solutions that enhance spaces, elevate experiences, and redefine environments.

Vision

Our aim is to provide sustainable, complete end to end lighting and control solutions.

Our Offerings

· Architectural Lighting: Facade lighting. Indoor and outdoor solutions harmonizing design and functionality for offices, homes, and public spaces. Dynamic façade lighting brings building exteriors to life.

· Sports Lighting: Optimal illumination for indoor and outdoor courts and fields, enhancing the athlete and audience experience. Services include supply, lighting controls installation, testing, commissioning, and live match/event lighting operation and management.

· Landscape Lighting: Stunning nightscapes accentuating gardens, pathways, and water features with energy-efficient solutions.

· Lighting Design & Consultancy: Our professional lighting consultants specialize in crafting personalized lighting schemes for various industries, collaborating with architects and electrical contractors to enhance the overall styling and illumination of spaces.

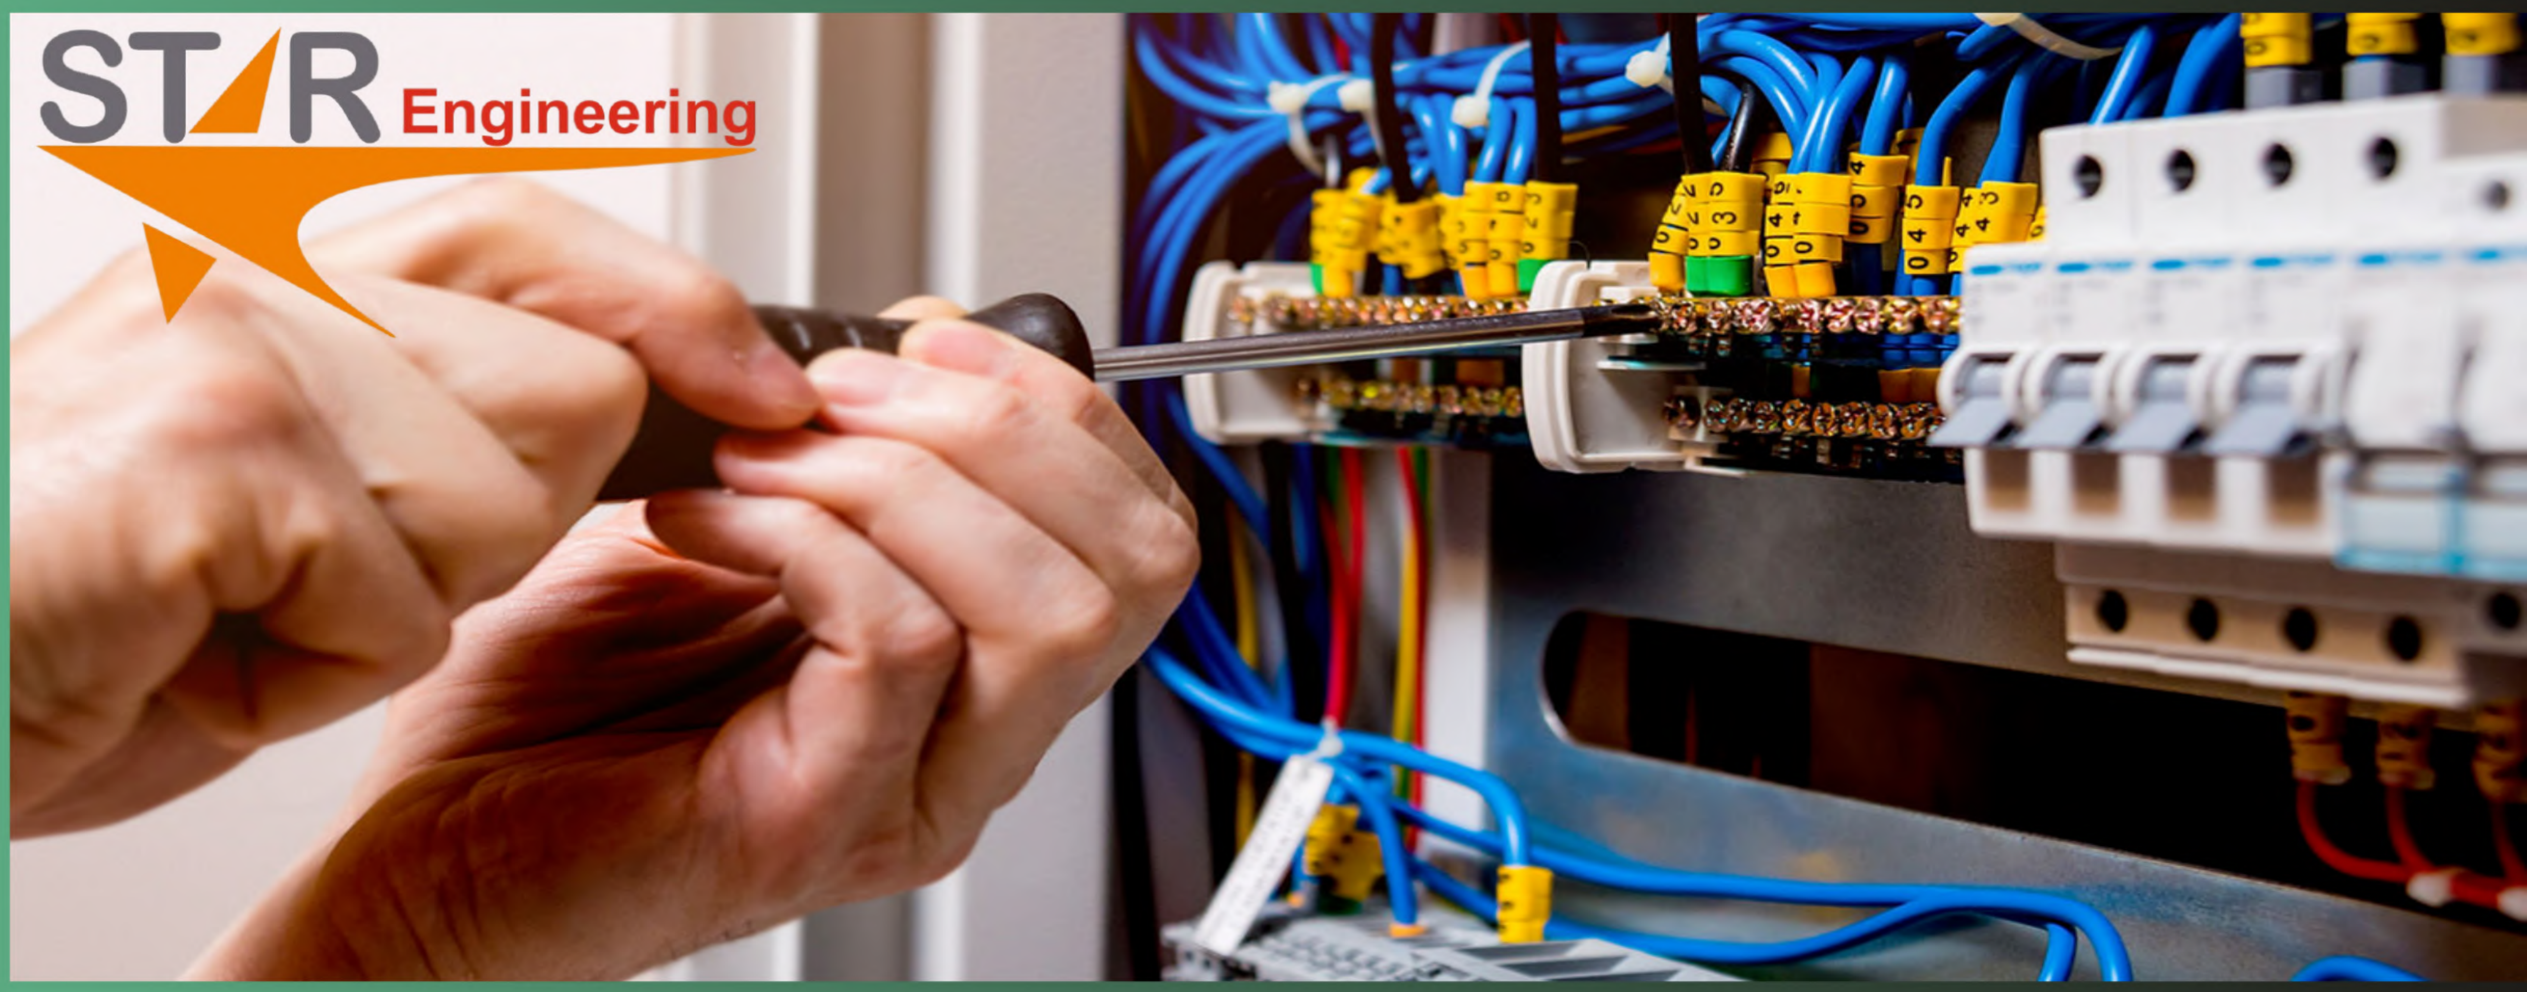
STAR Engineering



Electrical Panel Solution

We specialize in:
- Sports DB panel design and supply
- Project execution
- Automation and control Systems
- SITC of high and low voltage cabling
- Fiber optics lighting control networking
- Content making for facade and sports lightings with music

Lighting control system

We offer integrated lighting control systems that maximize energy savings, enhance convenience, and comply with building codes. Our offerings include protocols:
- DMX/eDMX Control
- DALI Protocol Systems
- 0-10V/TRIAC Dimming Solutions
- Light Management Systems with BMS and third-party control capabilities

Fiber optics & Networking

Our fiber optic solutions provide fast and reliable data transmission, significantly reducing signal loss and external interference.
