

TILT is a plug and play, low-voltage commercial lighting system that is made up of five main components:

1

Driver

Converts standard 120 to 277 volt AC power to a safer 24 volt DC power.

2

Drive Line

Brings power from the Driver to the LED lights. The TILT Drive Line is low voltage, plenum-rated, thin and flexible Class 2 wire.

3

Speed Whips

Connects the Drive Line to the LED lights; as thin and flexible as the Drive Line.

4

LED Lights

Highest quality LED lights in the industry. Downlights Round Square, Linear, and Panels

5

Wireless Controls

Wireless Dimming, Switching, and Occupancy Sensors

PLUG AND PLAY LIGHTING SYSTEM
