

Name Tent Directions

Exterior (Front) — Student Identity & Growth

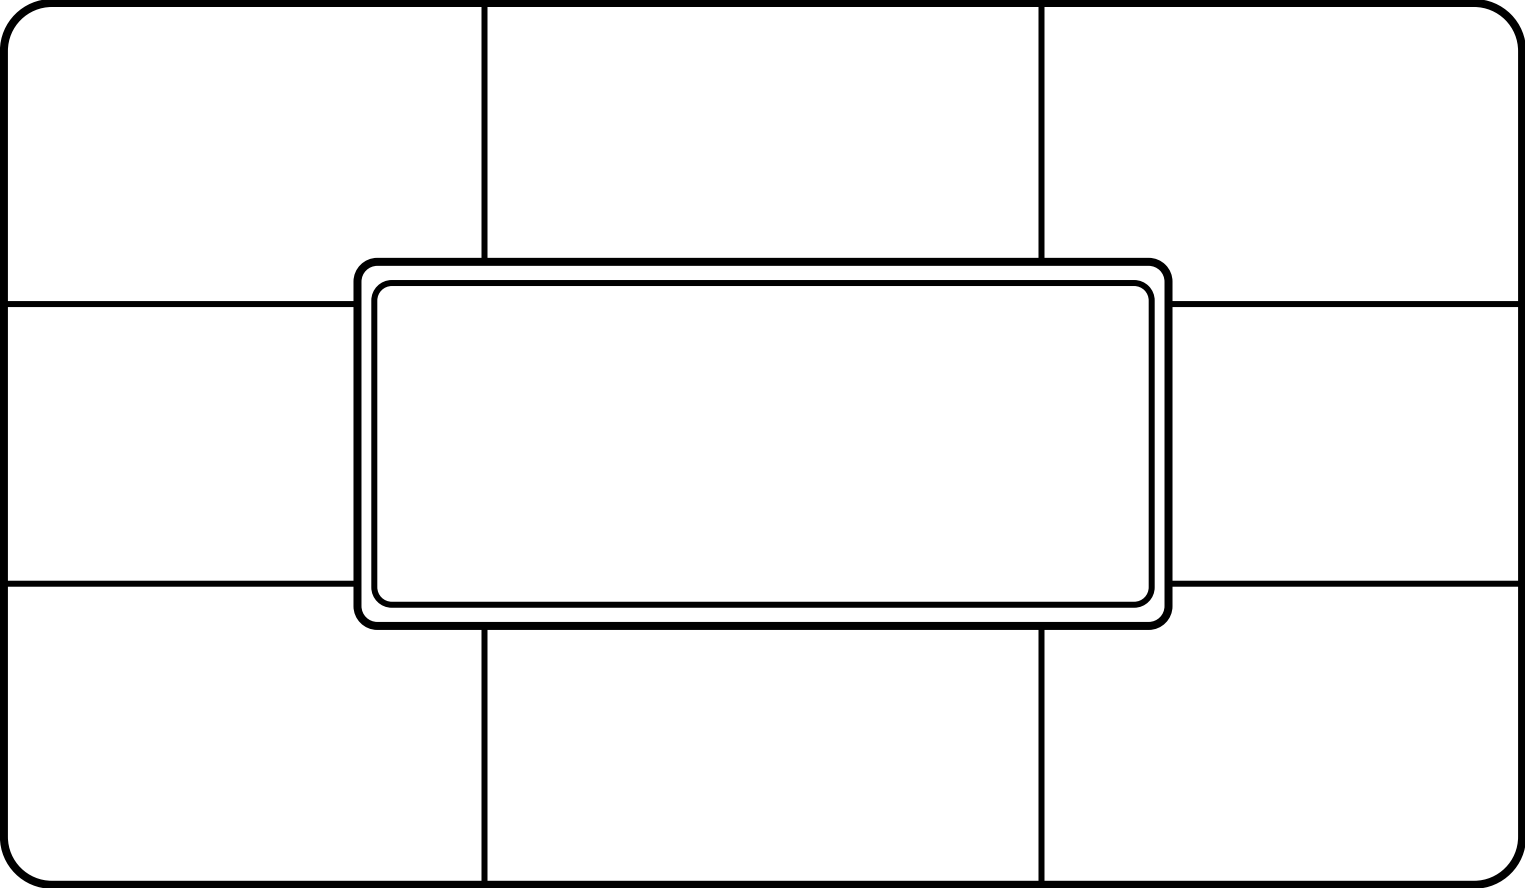

At the beginning of each class, place students with new table mates. Give them a prompt to fill out in a specific box of the name tent. Students complete just that section, then share with their teams.

After sharing, students will add the names of their table mates to the interior (back) of their name tent.

Interior (Back) — Class Connections

After sharing their response to the prompt of the day , students will add the names of their table mates to the interior (back) of their name tent. Then, students will add one thing they have in common with each person at their table. This can correspond to the prompt of the day, to previous prompts, or to something else.

I want to learn how to...	Favorite Hobby or Activity	Favorite Food
Favorite Book/Movie/Show		Favorite Color
Favorite School Subject	If I won the lottery, I would...	After I graduate, I want to...
