

## LEAN IN

They say that life is like a journey  
we've had a hell of a trip so far  
Every moment experienced  
Every day no matter where we are

(Chorus)

Lean in  
There's more road for us to follow  
lean in  
I can't wait for our tomorrow  
As sweet as it has been  
There's still lots we haven't seen  
So lean in  
Lean in  
Lean in

They say that life is what you make it  
And we've filled our glasses to the top  
Even with a few twists of the journey  
I still believe the love will never stop

Repeat Chorus

(Bridge)

25 years making memories  
25 years by your side  
It could only have been with you  
25 years a hell of a ride

Repeat Chorus
