

Over and Over

V1

I see you round town
From time to time
Been judging your faults
Nickel and dime
Lost at this game
Red rover red rover
Remembering you
Over and over

V2

Been under the influence
For years and years
Paying the penance
With tears more tears
Been shifting the weight
From shoulder to shoulder
We're victims of fate
Getting older and older

Chorus

It's love around me
Love behind me
Love that held me
Love defined me
And none of It's good
Not anymore
None of It's good
What was it for

V3

Been sending you notes
Again and again
No matter the silence
No pain no gain
Been holding out hope
That's clever so clever
But you're not coming back
No never, not ever

Repeat chorus

Bridge

Over and over and over and over
Love isn't good, love isn't good
Over and over and over and over
Love's ambition misunderstood

Repeat chorus
