

## No Brave Face

The doorway corrals me  
It pulls me away  
Nothing consoling about the goodbyes we say

This cold and constant rain  
Is more apropos  
To what's steaming down my face as I go

Chorus  
No calm voice  
No brave face  
Silence and sadness  
As we finish our days  
No brave face  
Tearful eyes  
Spirits defeated  
As we make our goodbyes

Walk beneath the black clouds  
The pathway gets dark  
Another graveyard that once was a park

Another life ending  
A sad song is sung  
Sad words, some embraces and it's done

Chorus  
No calm voice  
No brave face  
Silence and sadness  
As we finish our days  
No brave face  
Tearful eyes  
Spirits defeated  
As we make our goodbyes
