

Playstation 2 Hard Drive Sled & Spacer Installation Guide

By The Peaceful Outcome

Tools Required:

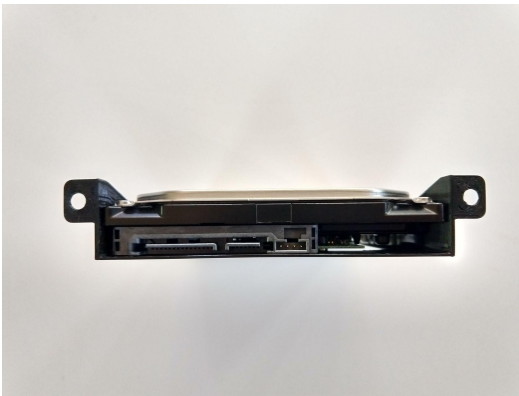

- Flat bladed screwdriver or coin

- 1) Place the hard drive into the sled / spacer and align the mounting screw nubs on the side with the holes in the hard drive so that one nub slips into the hole.

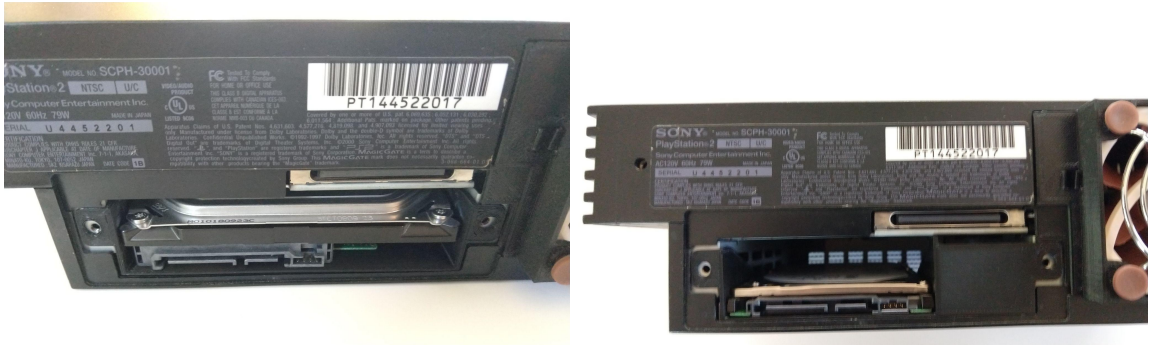

2) Push the other end of the sled / spacer on to the hard drive bending it until the other nub snaps into place.

- 3) Slide the sled / spacer and hard drive into the Playstation 2 hard drive bay.

- 4) Install and screw in the network / hard drive adapter with a screwdriver or coin.

- 5) Congratulations! You are finished. You can reconnect the power, controllers, etc.
