Notice to All Residents: Update Regarding Pool Reopening

Dear Residents,

We are pleased to provide you with an update regarding our pools. Over the past several months, we have been working diligently with our contractor and coordinating with the city to obtain the necessary permits and complete the required work to resolve the violations issued by the Florida Health Department for the two pools. Despite some delays, we are encouraged by the progress made and remain optimistic about reopening the pools in April.

Our contractor from Castellon Services recently visited the Florida Health Department and met with pool inspector Karel Vidal. Inspector Vidal confirmed that all violations related to equipment, including electrical and plumbing tasks, as well as city permits, have successfully passed inspection. These inspections were also approved by Environmental Specialist II, Onur Yelkenli, of the Florida Health Department, who conducted the final inspections.

Inspector Vidal also informed us that all documentation related to the completed work and inspections has been sent to the main office in Tallahassee. The documentation is currently under review, and a certificate of approval, along with the operating permit (already paid for), is expected to be issued and emailed to us within two weeks, starting from March 24, 2025.

Vidal explained that he cannot conduct the final inspection to reopen the pools until we receive the necessary certificates. Once the certificates are issued, Inspector Vidal will complete the final pool inspection and approve the reopening of the pools.

On a positive note, we are happy to share that all corrections, work, and modifications have already been approved, which is excellent news. Thank you for your continued patience and support as we work toward providing you with safe and functional pools.

Sincerely,

THE BOARD OF DIRECTORS

GOLDEN GATE CONDOMINIUM ASSOCIATION, INC.
