

Todd Grazier, Partner

Trainer, consultant and executive coach, Todd Grazier has experience in consulting, public sector, education, health care, hospitality and logistics. He has a warm supportive style while retaining the ability to really name the truth and help businesspeople see the things that they need to change in order to be more effective. His work with leadership teams is focused on making them more successful, cohesive, and effective, by helping them face the things that are in their way. Todd has had a life-long interest in helping people grow and develop their full potential.

Todd has three areas of focus at Business of People: one-on-one coaching with executives and emerging leaders to develop their leadership skills, consulting with leaders and their teams to become high performance teams and training groups of leaders, from supervisors up to executives, to become more skilled leaders, either through authority or influence, that achieve better organizational results. He is particularly active in the healthcare and manufacturing sectors. Todd has also led or co-led leadership trainings for vice presidents, directors and managers. He also coaches and consults for leaders and teams in the retail, agricultural, and nonprofit sectors.

Todd holds a bachelor's degree in education, a master's degree in library science, both from the University of Pittsburgh, and is a graduate of the Gestalt Institute of Central Ohio's post-graduate training program for coaches/consultants.
