Re: Shaun Wolff of Wolff Stone Ltd

I am pleased to confirm that we have worked with Wolff Stone on a large private house in the home counties, which required a large amount of high quality stonework. Wolff Stone were awarded the contract, which was tendered on a competitive basis. The drawings, the shop work and the fixing were of the highest standard. The free-hand carving was excellent, combining accuracy with a fine sense of three-dimensional form and shadow. The finished work was among the best we have seen and has provoked approving comment from both professionals and lay people.

We would have no hesitation in recommending Wolff Stone and their associates for other work of this type.

Signed,
