What does Israel bring to *your* life? What ideas or inventions are part of your world that originated in the land that is indigenous to the Jewish people? What if Israel impacted your life in positive ways, every day? Would you care differently about its survival and success? In this presentation, you will learn specifics about how Israel makes your world a better place. Challenged every day to survive and thrive, Israel and Judaism contribute to your world, anyway! Come and learn how and why.
