Residential Meters and Radios - Purchase Quantities

The Elmira Water Board is seeking bids for the purchase of Sensus iPERL meters and radios over a two-year three-month period (2026-2028). The total number of meters purchased could be up to seven thousand one hundred eighty (7,180). Seven Thousand (7,000) **5/8 inch x 3/4 inch meters** and One Hundred Eighty (180) **1" meters**. The total number of radios purchased could be up to Seven thousand (7,000) **510M M2 S/Point radios**. The Elmira Water Board does not make any representation, warranty or guarantee as to the quantity of meters or radios it will purchase from the lowest responsible bidder to whom Elmira Water Board awards the purchase contract. By submitting a bid, the bidder understands and if the purchase contract is awarded to it, the bidder agrees that the bid specification and the purchase contract do not and will not obligate the Elmira Water Board to purchase a specified number or minimum quantity of meters or radios during the term of the contract.

The unit bid price submitted by the successful bidder shall remain fixed for the entire term of the purchase contract.

Purchases made will be a minimum quantity of 1,000 meters and/or radios. Purchases and deliveries will be made in lots of one thousand (1,000) meters and/or radios, FOB, Elmira Water Board Meter Shop, 760 Bonview Street, Elmira, New York 14905.
