

Medior Data Analyst (with progression to Senior Role)

Brussels

Location: Brussels North, Belgium. The role may include occasional travel to other sites for project collaboration and meetings.

Job Overview: Seeking a Medior Data Analyst committed to professional growth with the ambition to step into a Senior role within 6 to 12 months. The role begins with a collaborative shadowing phase under the guidance of a senior mentor before assuming full responsibility for project leadership. Proficiency in Dutch is highly valued, with basic French language skills considered beneficial.

Key Responsibilities:

- Lead the migration project from SAP BW to SAP BW4Hana cloud, coordinating with both internal and external teams.
- Act as the primary point of contact for project stakeholders, ensuring seamless operation and integration.
- Provide pivotal data strategy input within the Mobility as a Service (MaaS) team across various business functions.
- Manage the implementation and compliance with data standards, coordinating with regional and internal operational teams.
- Strategically monitor ongoing data projects, aiming to contribute to business development and client engagement.

Medior Data Analyst (with progression to Senior Role)

Brussels

Candidate Profile:

- Bachelor's degree in informatics or a related field, or equivalent professional experience.
- At least 5 years of experience in ICT environments, healthcare sector background preferred.
- Solid knowledge of system administration and diverse hardware peripherals.
- Analytical, solution-oriented with a structured approach to problem-solving.
- Capable of working both independently and collaboratively within a team framework.

Contract Terms:

- Full-time, permanent contract.
- Engaging role within a high-tech, innovative environment.
- Clear pathway for career progression and skill development.
- Competitive salary ranging from €4,500 to €5,000 per month, complemented by a full benefits package including teleworking allowances, transportation subscriptions, meal vouchers, eco-cheques, ample annual leave, and comprehensive insurance coverage.

Application Process: Passionate data analysts looking to elevate their career trajectory are encouraged to apply.
