Targeting and knowing the differences between “parties” allows for great success with this file. This election year may go down as one of the closest races. It is important to target these democrats now, before the election. All donations and contributions have been recorded, and these democrats want to show their support through your offer. **We use a unique, statistical based, inference model to identify those voters who are not in the compiled registration roll files. We do so at a certainty rate of at least 95% based on a proven multi-source profiling model.** A-Plus Media Group CASS certifies all of its records to ensure accuracy.
