- Cost: \$60 pp for members (\$90 pp for non-members) + HST
- Register by March 15th to receive Zoom online meeting link
- **Email Karen Carrier at kvgarden@rogers.com**

- 8 IPM CEUs available
- Landscape Industry Certification
CECs available at 1 per hour

Symposium Sessions:

Concerned about **pests, spray regulations and how to best select, maintain and calibrate equipment**? We will review current challenges in the region and offer up direction on how to best approach these matters with the help of **Steve Smith**, General Manager of Nutri-Lawn Nova Scotia and Moncton.

Think you have Irrigation practices all figured out or don't know where to start? **Barry Stone**, Owner of Irri Plus and trouble shooter for industry professionals in the region, will highlight several **misnomers of Irrigation** while guiding us through the key components of an effective irrigation system.

Looking for nutritional options that will support turf growth and sustainable practices? **Scott Walker** of DSW Enterprises and Consulting Ltd, will share research and explore integration of **biologicals and biostimulants** that will take you to the next level.

Turfgrass Agronomic consultant, **Paul Cushing** from San Diego, California, will be joining us to share his 30 plus years of experience in the golf and sports turf industries. He will show how **sodium management** can be achieved using the basic principles of agronomy and address the issues, diagnosis and solutions that can be achieved in a long term sustainable program.

Have other questions and concerns? Join us for industry association updates and share in group discussions facing our turf practitioners.

I would like to register my company:
