MPS™

Power, Anytime, Anywhere

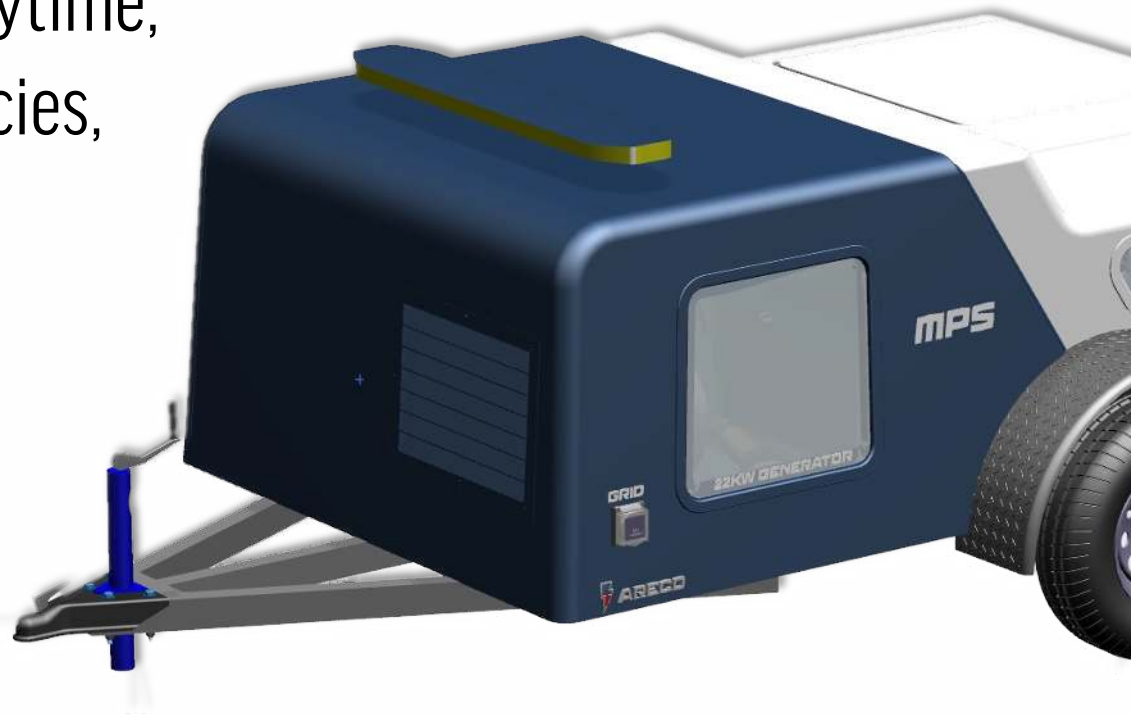

by **ARE CO™**

An Innovative
MOBILE POWER SYSTEM

WHAT IS THE RESCUE MPS™?

OVERVIEW

The RESCUE MPS™ (Mobile Power System) is a patent-pending, all-in-one power solution engineered to provide power—anytime, anywhere. Whether for emergencies, business operations, or off-grid adventures, the RESCUE MPS™ delivers unmatched versatility and reliability.

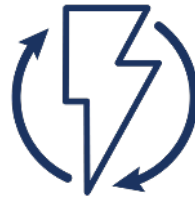

GROUNDBREAKING 5-IN-1 DESIGN

POWER, ANYTIME, ANYWHERE

MOBILITY

Towable with a 115 lb. tongue weight and 3,050 lb. total tow weight.

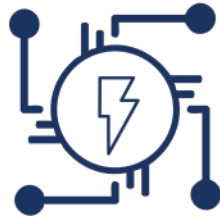

POWER GENERATION

22 kW onboard propane/NG generator with 29.3-gallon fixed propane tank; consumes 2.8 gal/hr at max 22 kW output.

POWER STORAGE

8 lithium iron phosphate batteries with 2 hybrid controllers provide 44 kWh total storage.

UNIVERSAL CONNECTIVITY

Supports V2G (240V AC, 50A), V2V via onboard charger, bi-directional battery/generator flow, and optional V2PV (solar input).

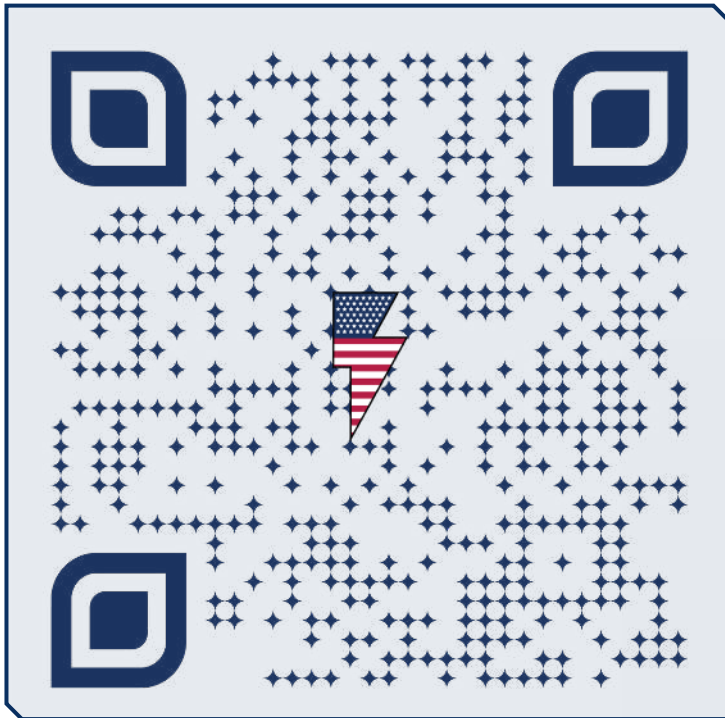

MOBILE EV CHARGING

Integrated 19.2 kW Level 2 AC charger—the largest available for fast mobile charging.
