

ABCrosby & Company

We Build Your Design

ABCrosby is your custom furniture manufacturer. We work with you and your client to provide the furniture they want in the quantities they need.

Whether they need table tops, bases, complete tables or casegood furniture, your customer can specify

- * Product Dimensions
- * Shape
- * Material
- * Color
- * Style
- * Components
- * Special Features

Contact us to discuss your customer's unique design.

Never settle for standard....

We Stand Behind Our Furniture

"Quality is # 1" is more than a motto at ABCrosby; it is how we do business. We are committed to delivering high quality products on every order. We use the highest quality materials for all of our furniture. During the production process, all of our products go through multiple quality assurance steps to ensure our products meet ours and, most importantly, your stringent quality requirements.

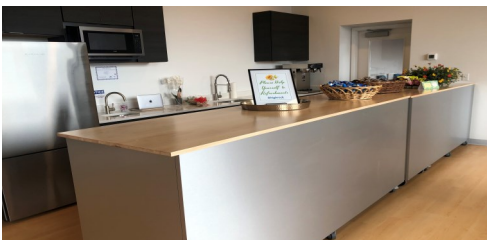

More importantly, if a problem does occur, we do not disappear or hide behind procedures. We proactively work with you and your client to solve the problem.

One-Stop Shopping

You are too busy to contact multiple vendors to find all of the furniture your client needs. As an additional service, we offer one-stop shopping for all of your clients' furniture needs. We have partnered with manufacturers and custom fabricators to provide customers the furniture they need - including specialty table tops, tables, chairs, barstools, booth seating, metal bases, casegood and outdoor furniture.

If we don't make the furniture your client needs, one of our partner probably offers it. If not, we will find it for you.
