

ABCROSBY & COMPANY, INC.

Industrial, Commercial, & Institutional Custom Furniture Manufacturer
Building on a 260 Year New England Tradition

The Thin Look Is In – And ABCrosby has it!

THINTops

Created without a substrate and just ½-inch thick, THINTops are sleek, elegant, and room-defining.

THINTops are made using Wilsonart's THINSCAPE®. Available in 12 handsome designs, THINSCAPE™ Performance Tops feature handpicked design-to-core combinations in a trending European-inspired "thin" profile. Highly durable and versatile, THINSCAPE's slim 1/2" construction offers impact-, scratch- and moisture-resistance that performs well beyond what comparable products can achieve.

European inspired. Striking. Room defining.

THINTops are both on-trend and practical. Exceptionally modern yet unquestionably timeless. Ultra slim decorative slabs feature a variety of surface material looks including large-scale stone, quartz, planked wood and aged metal designs. Expertly matched finishes in today's most sought after lightly textured sheen

Simple

Proven, elegant designs. Zero substrate. Simple to care for, disinfect and clean for use every day. THINTops provide the ultimate solution in healthcare, hospitality, restaurant & food service table top simplicity. Worry less about spills or messes and more about your creative vision with this low maintenance, stain-resistant material

Strong

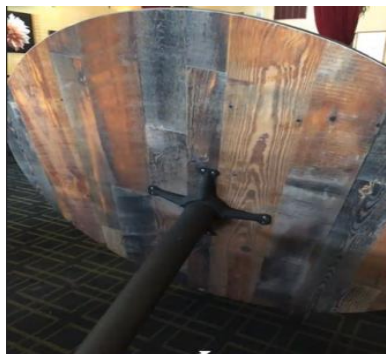

Engineered in layers to be exceptionally dense. The 1/2-inch construction also features non-porous, impact, scratch, and moisture resistance that offers next-level durability and performance. Made to be impact, abrasion and scratch-resistant, this surface was made to stand up to everyday wear and tear

Eco-Friendly

Designed for indoor spaces, GREENGUARD Gold Certification gives you added assurance that ABCrosby's THINTops meet strict chemical emission limits.
