ABCrosby offers highly customizable standard table tops — made to your custom specifications

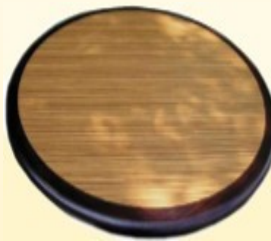

### Solid Wood Table Tops

ABCrosby offers a full range of solid wood plank table tops in a variety of sizes, shapes and wood species. Our standard solid wood tables are made of ash but we also build tables with maple, red oak, cherry, and other species. Standard wood tops are 1 1/4" thick and we offer 1 3/4" thick tops as well. All sizes are cleated for dimensional stability.

Our standard tops are stained with one of our standard stains and finished with two coats of conversion varnish. ABCrosby also builds custom solid wood table tops to meet your specifications from butcher block to rustic design. Custom sizes, wood species, edge styles and staining are available by quotation.

### Veneer Table Tops

ABCrosby manufactures veneer wood table tops in variety of sizes, shapes, and wood species to meet your specifications. Our standard veneer tops are 1 1/4" thick and made with Maple or Red Oak veneer with a particle board core.

ABCrosby builds veneer tops to your specifications. Custom sizes, veneer species, edge styles, core material, stains and shapes including booth style tops and radius corners are available by quotation.

### Laminate Table Tops

ABCrosby specializes in manufacturing high pressure laminate table tops combined with wood, as well as all laminate products. Our table and counter tops are the highest quality and durable tops on the market and are offered with:

- ◆ Laminates in hundreds of colors and patterns from your choice of brands including Arborite, Decotone, Formica, Lab Designs, LaminArt, Nevamar, Pionite, and Wilsonart
- ◆ Tables can be manufactured in one of our standard or special edge styles listed below or your custom edge style.
- ◆ Standard wood edges are made from Ash; other species are available by quotation.

### Padded Table Tops

ABCrosby manufactures 1-1/4" thick, white vinyl padded table tops for your restaurant, bar or lounge. Our padded tops are available in both standard and custom sizes including expandable tops. We manufacture our padded tops with high quality padded vinyl covering a particle board top. The particle board is sealed top and bottom with backer to ensure the long term stability of the top.

ABCrosby stands behind our products with a 5 Year Workmanship Warranty on all manufactured products.

• Most Popular Table Styles

ABCrosby offers a range of specialty table tops — made to your custom specifications and unique requirements

### Thermofoil Table Top Styles

ABCrosby offers our customers high quality Thermofoil table tops. Choose from a variety of beautiful colors, wood grains and textures. Select from 6 standard colors or upgrade your table top and select from 19 optional colors to get that high-end look you want in your facility without the high-end price. We can quote other colors as well. Let us know what you are looking for!

Our Thermofoil tops are constructed using

- ◆ 1-1/8" MDF Core
- ◆ White Melamine Backer
- ◆ 100% Seamless RFT
- ◆ Standard edge profile with eased bottom edge

Thermofoil tops are moisture-resistant, easy-to-clean, and low-maintenance. Ideal for healthcare environments!

### Corian Table Top Styles

ABCrosby manufactures solid surface table tops using DuPont CORIAN® and other solid surface materials including Avonite, WilsonArt, and Formica brands.

We manufacture our tops with particle board core to bring the thickness of the table to 1-1/4" thick and to secure the top to the base. The tops are edged with the solid surface material to cover the particle board.

These tops are ideal for any food service, hospitality or other project where durability, beauty and longevity are valued. These table tops will enhance your facility.

Solid surface tops are nonporous and stain resistant. Spills do not permeate the surface. With proper cleaning, solid surface table tops do not

### Specialty Materials Top Styles

In addition to solid surface tops, ABCrosby has extensive experience in using other special materials including Wilsonart ThinScape, Forbo Marmoleum®, sheet metal, Bamboo and OSB boards to make its table tops. We can also provide Quartz, Granite, and Marble tops.

Call us for a quote or to discuss your specialty materials table top requirements.

### Commercial Chairs

ABCrosby supplies a wide selection of metal and wood commercial chairs. In addition to the standard chair styles we offer, we can deliver chairs built to your specific designs, create custom solutions, and adapt standard chairs to meet your needs. Contact us to discuss your chair requirements.
