**Progress Muscatine Releases “What Can I Do?”  
Episode Nine of *Know Better. Do Better.***

(Muscatine, Iowa) “What Can I Do?” episode nine of *Know Better. Do Better.* provides three actions to take to improve Muscatine Power and Water’s energy transition plan, and increase transparency and accessibility.

1. Share the information in the Know Better. Do Better. Series.  
Additional information can be found at [www.ProgressMuscatine.org](http://www.ProgressMuscatine.org)
2. Attend the Muscatine Power and Water Board of Trustees Meeting at 4:00 pm on Tuesday, June, 25, at the MPW office at 2305 Cedar St.
3. Contact MPW and the Board of Trustees and encourage them to:
  - Build a resilient and reliable energy system with Battery Energy Systems Storage (BESS) and renewable energy
  - Broadcast board meetings, and include an informational packet with each agenda

At the MPW Board of Trustees meeting on Tuesday, June 25, a vote is expected on two significant issues: a plan to build a natural gas powered CHP plant, a strategy in alignment with 4% of all new U.S. grid capacity in 2024; and a steam sales contract with Grain Processing Corporation, the one MPW customer in need of steam from the CHP plant.

In April 2024, the board meeting time changed from 5:30pm to 4:00pm. All meetings are in the MPW auditorium. Public comments are welcome.
