ABC Radio - Grandstand + Mornings
Canberra Times

"Mark was absolutely awesome! We all thoroughly enjoyed the training and general experience. It was uplifting, emotional and powerful. Others have said it was the most worthwhile PD they have ever experienced. Coming from harsh critics in this place, this is a fabulous endorsement of Mark and his program."

Head of Wellbeing Central Coast Grammar School

STUDENT LEADERS INSPIRING MENTALLY HEALTHY AND ACCOUNTABLE SCHOOL YARDS

For many life can be a struggle and can take great courage to show up each day. At times it is evident that many students in our schools could be treating each other a whole lot better.

We train and mentor your student leaders to inspire a more supportive check-in culture by recognising that "everyone has their struggle ...so be kind." By making it OK not be OK so students are more comfortable asking for and offering support.

Your Brave Leaders will work together as a team to utilise simple tools and processes that are easily integrated within existing school, house and extra-curricular activities. Developing class, team and peer buy-in, support and accountability.

Momentum workshops ensure a more impactful school year leadership program. Supporting your leaders to become more confident in shaping the direction of topical issues depending on school needs while implementing I Respect practices within school activities week after week, year after year.

Topical issues that may be addressed by your leaders may include such things as mental fitness, objectification, respectful relationships, sexual harassment, bullying, racism, homophobia, kindness, gratitude, supporting others etc ...
