# SPA Summer Camp 2022

Stem Prep Academy

Stem Prep Academy

**Our mission is to encourage scholars to reach their full potential by providing stem focused hands on interactive learning. Our vision is to bridge the gap with enrollment in STEM fields.**

**We aim to help teach children how to think, not what to think, to use their natural ability, creativity and energy to build, and create, which is all part of STEM learning and STEM-related career for the future.**

**We equip scholars (ages 2 to 6) to learn through stem engagement that it will help them in to STEM careers in the future and bridge the gap in the skills shortage by producing a generation of free thinkers, who are not afraid to go forward and be counted.**

**This new brave future must be filled with diversity, cultural differences and the uniqueness of creative spirit that can only come from interaction.**

**We desire to make classes accessible to all children regardless of race, gender, culture, religion or any other bias that may prevent them from achieving their goal to become the next, programmer, engineer or technician.**

# SPA Summer Camp 2022

## STEM & Early childhood education data!!!

Early STEM teaching can promote better language and literacy results (Sarama et al., 2012)

Early exposure to STEM is critical for later education results (NAEYC 2021)

When children have the opportunity to try to design problems, collect data, and solve scientific problems, the strong ropes they create can be used in countless ways in the present and throughout their lives (McClure et al., 2017).

## Why enroll in SPA's Annual STEM Summer Camp?

Small Camp Size

STEM Hands-on learning

Career Exposure

Decrease the summer learning curve

Weekly Field Trips

Healthy Am & Pm Snack Program

STEM Professionals visit

Water play Wednesday

# SPA Summer Camp 2022

## FAQ?

**Is lunch & snacks included? Lunch must be packed however, all snacks are provided.**

**Can my student bring their cell phone/Ipad? No, we ask that all electronics stay home.**

**Who are the staff? College students 18 years or older, majoring in a stem field. Supervised by an experienced director, over 21 years of age. All clearances are on file.**

**How many campers will there be? There will be 14 campers in our mini med camp.**

**Are there any scholarships or financing available? We accept state subsidies and a payment plan is available.**

**Could you describe a typical day? [each camp day is unique, but there is a great deal of consistency to the daily program. The daily schedule consists of sign-in/free choice, daily recitation, icebreaker, steam, snack, stem class, lunch, self-esteem, yoga/mindfulness/outside (rotates), stem class, snack, clean up, pick up/free choice.**
