

To whom it may concern,

Valencia is a very skilled writer and artist, who continues to strive to perfect her art each and every day. From her poetry, to her video editing— one can tell the time and passion she has for this art. We have had the pleasure of engaging with Valencia (Lenciaga), and, we are often being amazed with her poetry, which makes one think. She will be a huge asset in whatever venture she takes on.

Sincerely,

Kiana and Kenzo
