

To Whom It May Concern,

I highly recommend **Valencia Benjamin**. She is a strong creative, and innovative, business woman. Valencia has a unique ability to combine her technological skills with writing and music.

Valencia is able to take a concept, then, create a visual composition that brings the point home, with a unique style of clarity, beauty, and grace. She is versatile in creating projects and delivering results for businesses, artists, and/or humanitarian efforts. She's particularly versed in targeting the millennial and generation z markets.

Valencia is committed to bring in her best to the table, (for the company she's employed by). Whoever hires her will enrich their team's ability to innovate and deliver results! Valencia will be a Strong player to any team she joins!

With respect,

Lora Hobson
