Mayor Hale invited Aron Miller to explain the scope of the grant opportunity. Mr. Miller explained that the highest scoring opportunities are for streets, drainage, sewer treatment and water. Public Management recommends that the City of Plantersville seek the grant for streets, and Mayor Hale reminded that we would need to include in drainage in our plan.

Mayor Hale asked if anyone had any questions. Each Alderman had a few questions. How much is the grant for - \$750,000. Is there is a matching contribution from the city required - yes, \$15, 000. Questions were asked about the process and how much board participation there will be. Visitor Ed Bill asked if the grant would be only for streets and drainage - yes. Mr. Miller that it looks like CR 203 and CR 311 are the streets in the City that will meet the requirement for the grant. The Engineering Firm that we hire will make a determination about how best to use the amount of money allowed.
