

ENGINEERING SPECIFICATION

Thintanks USA 300G Modular Water Tank

Specification

ThinTanks USA 300G slim water tank is rectangular, seamless, and has rotationally molded construction from NSF 61 listed, UV stabilized, BPA free, and FDA compliant PE resin. The tank is designed to minimize footprint and impermeable surface with a width of 11 1/4", and to fit between 4x4 timber posts on an 8 ft center for a fence like appearance. Tank is capable of freestanding or wall-supported installations and allows for connection of two or more tanks in series without gaps between ends. The optional modular vertical garden system, Thinpots, are designed to allow connection of planter pots onto tank, and capable of self-watering or manual irrigation.
