

500L

The 500 Litre Thintank is 1200mm in height. It is the smallest and most versatile water tank amongst the Thintanks range. With its compact size and appearance, it is great for under window sills and can be joined together to increase capacity.

Length 1200mm

Width 400mm

Height 1200mm

Weight 42.5kg

Choose from 12 different colours Colorbond colours

DISCLAIMER

Actual colours may vary. We try extremely hard to ensure our photos are as life-like as possible, but please understand the actual colour may vary slightly from your monitor. We cannot guarantee that the colour you see accurately portrays the true colour of the product.

Fittings inclusion	Ball valve, inlet strainer, overflow flange
No. of plugs	24

Product Specifications

Due to the variable shrinkage rate of polyethylene, the product dimensions and capacities listed here are approximate. Naturally occurring pigment variations in raw materials may also cause some variability in colour shades. While we are trying to come as close to the advertised shades as possible, we are unable to guarantee exact tank colour matches. Due to ongoing improvement and innovation, product details, design and specifications are subject to change without notice.

Product Suitability

The product recommendations used in this brochure are intended only as a guide. While we make every effort to accurately represent the suitability of our products for a variety of uses, every situation may be unique and require additional investigation when necessary. Thintanks holds the right to change equipment and product accessories in line with ongoing developments and product supply.
