Lot # _____ **Block #** _____

Phase 1: Front Entrance Island Renovation: \$35,000.00

1. Border Repair: Concrete island curbing restoration.
2. Utility Access: New electrical and water main connections.
3. Irrigation: System install (May be delayed if phase 2 is approved).
4. Landscaping: New greenery/plantings, etc. (May be delayed if phase 2 is approved).
5. Hire an Arborist to give advice on preserving the tree
6. Demolition: Removal of East/West curved Wing Walls.

The reason we are considering the removal of the Wing Walls is the East Wall is leaning and needs significant repair. They are located on property not owned by BPCA and they may not match the proposed improvements.

Phase 2: Neighborhood Entryway & Signage: \$40,000.00

1. Primary Signage: Design and install the Bridgepoint monument sign (orientation to be determined: parallel or perpendicular).
2. Community Information: Install a dedicated neighborhood notice board or display for resident communications.
3. Site Improvements: Integration of landscape lighting and additional entryway amenities.
