

# **The Pines Dental**

## **Instructions and Information for Patients being Treated during the CoVid19 Pandemic**

In keeping with guidelines outlined by The Ontario Ministry of Health as well as The Royal College of Dental Surgeons of Ontario we have implemented the following changes to your dental clinic visit:

1. CoVid19 pre-screening when booking your dental appointment.
2. You must phone reception when you arrive on the premises and you will then be given instruction as to when to enter the building.
3. Upon entering the building you must perform hand hygiene via the provided alcohol based hand sanitizer at the front desk counter and don a mask. Then you are asked to check in with reception.
4. Maintain social distancing of 2m whenever possible
5. You will then have a second CoVid19 pre-screening assessment and will be asked to fill out the Ontario Dental Association CoVid19 Pandemic treatment disclaimer
6. You must use hand sanitizer before leaving the dental operatory following your procedure
