**Important Information About The Proxy Form**

**What is a Proxy and why is it necessary?**

In order to conduct official club business such as the nomination & election of officers, the club needs a quorum of 35 members to conduct such business. A completed proxy enables you to participate in voting on club business without being present at the meeting, but still be included towards the required quorum by authorizing another member in good standing to vote your position. This member could be your spouse, another member, a Director at Large or other officer who is willing to cast your vote as instructed on your behalf as though you were present via a completed proxy in their physical possession. This will ensure that there is a proper representation of the membership deciding club business at the meeting.

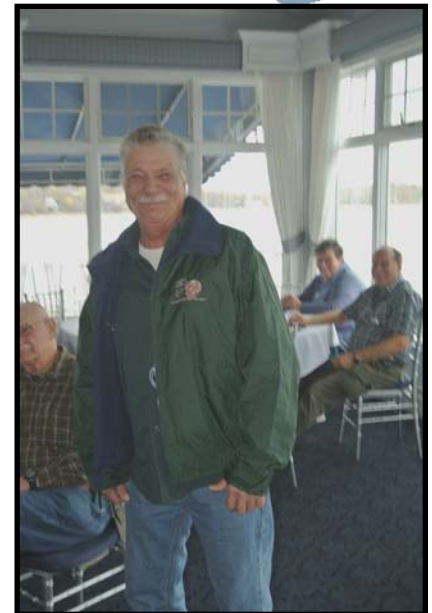

Proxy form may be downloaded from our LIGRS website or taken from page 10 of this newsletter.

## News from Dave Smith

Here's a photo of a railcar I just completed. It uses a die-cast 1932 Cadillac body with a NWSL power truck under the rear and kit built front truck. Getting this all mounted was a nightmare and then, "How do I power it?"

Ended up using a 7.5 Li-Po battery hidden UNDER the car and just a simple on/off switch rather than trying to make it r/c. Wish I could put sound in it!

The PGRS member who owns the layout runs ONLY live steam and BUILDS his locomotives and rolling stock from scratch. He currently has a series in the magazine "Steam In The Garden" about scratch building a live steam Heisler.

The station in the building has a station sign on it. With a push of an r/c button the sign rotates and the station name changes to another name. He says he did this so that when a train completes the loop it comes into a "new" station.

Amazing fellow and always ready to help!

## Holiday Train Show at the New York Botanical Garden

### New York City's Favorite Holiday Tradition is Back

November 23, 2019—January 26, 2020

<https://www.nybg.org/event/holiday-train-show/>

Enchanting model trains zip through a display of 175 landmarks, each re-created with bark, leaves, and other natural materials—all under the twinkling glow of the Enid A. Haupt Conservatory. Marvel at G-scale locomotives humming along among familiar sights such as the Brooklyn Bridge, Statue of Liberty, and Rockefeller Center on nearly a half-mile of track. The recent exhibition expansion continues with more trains and making their debut this year are showcases Central Park, with its iconic landscape fashioned in mosses and hollies, and architectural treasures such as Belvedere Castle.

### Solution to What the Heck Puzzle

Haliburtan mud car. (mud probably means sludge from refining process.)

### Annual Auction At February Meeting

Don't forget the annual club auction which will be held on a **SATURDAY** at the February 16th meeting.

Join the entire auction team for another great LIGRS Annual Auction. Don't have room for all of those new trains? The LIGRS Annual Auction is the perfect solution. So clean out the attic, closet, basement and/or garage and bring all those unwanted train related items to February's Annual LIGRS Auction or donate them to the club. Watch the LIGRS auction team perform its magical alchemy by transforming those excess trains into cash, or excess cash into trains. (A win-win event!)

The auction is a wonderful event that combines aspects of *Let's Make A Deal*, *The Price Is Right* along with a bit of *Family Feud*.
