

# Oxyblu digital

## Capabilities Deck

Managed IT Services

[oxyblu.com](https://oxyblu.com)

# Cloud Computing & Digital Transformation

## Multi-Cloud Solutions (IaaS, PaaS & SaaS)

End-to-end cloud services across all major Infrastructure-as-a-Service, Platform-as-a-Service, and Software-as-a-Service platforms. Our solutions ensure scalability, resilience, compliance, and cost optimization.

## Public Cloud Expertise

Design, migrate, optimize, and manage enterprise workloads across all leading cloud ecosystems.

- Microsoft Azure (Primary Specialization)
- Amazon Web Services (AWS)
- Google Cloud Platform (GCP)

## Cloud Migration & Modernization

- Legacy-to-cloud transformation
- Application modernization
- Security-led cloud architecture
- Hybrid and multi-cloud deployments

# Identity, Access & Data Security

## Identity & Access Management (IAM)

Implement & Manage Enterprise IAM solutions for secure authentication and access control

- OneLogin
- Okta
- Duo Security
- Single Sign-On (SSO)
- Multi-Factor Authentication (MFA)

## Endpoint Security

- Enterprise antivirus & EDR
- Device compliance enforcement
- Threat detection & incident response
- Centralized endpoint monitoring

## Data Loss Prevention (DLP)

- ForcePoint DLP
- Data classification & protection
- Regulatory compliance (ISO, GDPR, HIPAA, etc.)

# Infrastructure & Virtualisation Management

## Virtualization Platforms

- VMware
- Microsoft Hyper-V
- Private and hybrid virtualization environments
- High-availability and performance tuning

## Windows Server Management

- Active Directory Architecture
- Patch management
- Performance monitoring
- Role-based server deployments

## On-Premise Datacentre Operations

- Datacentre design and optimization
- Server, storage & network management
- Asset lifecycle management
- Business continuity architecture

# Business Continuity, Disaster Recovery & High Availability

## Disaster Recovery & Site Recovery

- Backup & Restore Strategy
- Disaster Recovery Planning (DR)
- Business Continuity Planning (BCP)
- High Availability (HA) Design

## Data Protection Services

- Automated backup workflows
- Cloud and on-premise replication
- Ransomware protection & recovery assurance

# Networking, Firewall & Connectivity Solutions

## Network Infrastructure Management

- DNS, DHCP & Active Directory Services
- LAN / WAN Management
- Routing & Switching Operations

## Firewall & VPN Solutions

- Enterprise firewall deployment
- Secure WAN connectivity
- Remote access VPN
- Zero trust network security models

# Digital Workplace & Collaboration Solutions

## Document Management Systems (DMS)

- SharePoint Online & On-Premise
- OneDrive Storage Management
- Structured document workflows
- Information governance & compliance

## Mail & Collaboration Services

- Microsoft 365 (M365)
- Microsoft Exchange
- Google Workspace (G Suite)
- Mail security, migration & governance
- Collaboration enablement (Teams, SharePoint, Google Meet, etc.)

# IT Service Management (ITSM)

Structured **IT operations** aligned with ITIL best practices, ensuring predictable measurable & scalable service delivery

- Incident Management
- Problem Management
- Change & Release Management
- SLA & KPI-driven support operations
- Centralized service desk operations

# Asset & License Management

Structured **IT operations** aligned with ITIL best practices, ensuring predictable measurable & scalable service delivery

- Incident Management
- Problem Management
- Change & Release Management
- SLA & KPI-driven support operations
- Centralized service desk operations

# Managed On-Prem & Hybrid IT Operations

## Continuous monitoring and management of:

- Servers, storage & virtualization platforms
- Hybrid infrastructure environments
- Network uptime & availability
- Capacity planning & growth forecasting

# End-to-End Managed IT Support Model

- 24x7 Infrastructure Monitoring
- L1, L2, L3 Technical Support
- Security Operations Support (SOC & SIEM)
- Proactive maintenance & patching
- Compliance & audit readiness support

# Thank You

Excited to Team-Up with you
