Personalisation of the itan sunbed

We offer a range of standardised colours for you to choose from, and additionally we can also personalise the sunbed with your choice of logos and colours*

Installation and Service

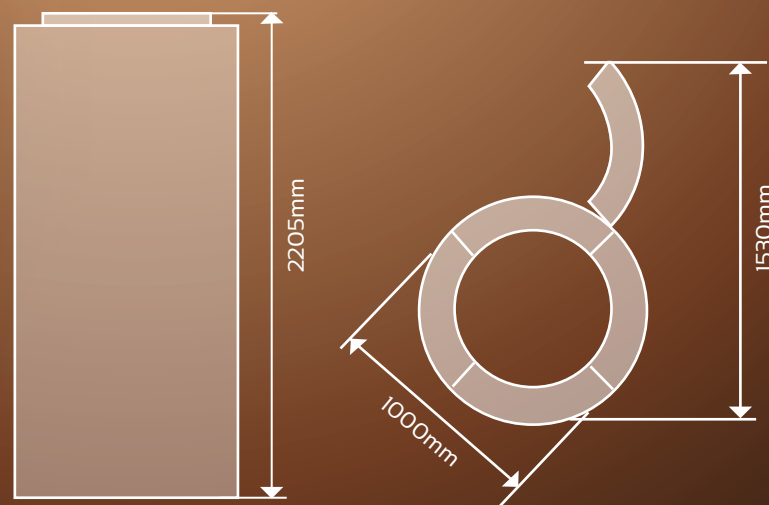

Our dedicated team of electricians will advise the requirements to install a Tanshare sunbed, all our team are fully trained in the technical and electrical set up of sunbeds.

Important: All isolation and disconnection devices must comply with BS 7671 IEE wiring regulations.

We also offer a full aftercare service as well as retubing services and supply of sunbed accessories.

itan dimensions

* Terms and conditions apply, some personalisation extras will be at an added cost

Our commitment to continue to innovate and develop our products and services means we may change design and specification of our products, which also includes price structures.
