

# Cyber Security for all age groups

Webinar Series # September 2021

# Introduction

Schoolalerts is launching a brand-new webinar series which will have distinguished speakers from all walks of life and delivering topics which will be useful to the current generation of students and their parents. To kick start these series, we are extremely glad to announce our first Webinar on “**Cyber Security**” for all age group of students and their family members.

We have often come up with situations where parents have told us very sad and disappointing stories of being victims to Cyber Crimes. We, at Schoolalerts, feel that we have something to share with you all, which can help protect you from any future Cyber Crime events and you can take utmost precautions while doing Online transactions and providing information on any websites.

Our main aim to launch these series is to spread awareness and bridge the gap between parents, students and the education system. With a goal to reach as many people as possible, we have kept the registration fee as Rs 100 (for Indian participants)/ AED 10 (for international participants)

**Do join our Webinar if your answer to one of more of these Questions is “Yes”**
