16'6" x 40'6" x 31'9"

**Venetian**

22' 7" x 32'

# WHAT IS STRUCTURAL POLYMER?

It's a process that injects a hi-impact polystyrene resin into a huge press. The injected material expands under pressure to form what is commonly referred to as structural foam. It is a material which has replaced many raw materials used in the production of automobile parts, furniture and much more.

Structural foam is a concept which has growing interest in the material market place. Structural foam is not to be confused with Styrofoam or other foams of a soft flexible nature. In simple terms, it is a very hard, solid core material, and as with all structural foam types, flexural strength and tensile strength are dependent upon the specific requirements of the product desired.

## Radius Panel

**4" Flanges**  
provide precise alignment of pool wall

**Radius Panels**  
custom molded for a smooth transition

**Brace & Stake**  
provides precise alignment of pool wall

Panels Available:  
Molded Radius Panels-  
6", 2', 4', 9', 10', 24'  
Molded Reverse Radius-  
2' True L, 1' x 1' Reverse 45°,  
7'6" Reverse Radius

## Straight Panel

**Indicated Cutouts**  
for skimmers and lights

Panels Available: Straight -  
6", 9", 1' 3", 1', 2', 3', 4', 6'

\*Please note that your Regāle™ Pool Dealer/Pool Builder is an independent contractor and not an employee of Regāle™ Pools. Regāle™ Pools does not assume any responsibility for the installation or service performed by your independent dealer/builder.

All Regāle™ straight and radius panels are precision engineered and molded with high impact 100% polystyrene. They are extra heavy with full 4" flanges and 3/8" ribbing, face and flanges. Panels will not rust, rot, or corrode. Optional steel or polymer braces. Precut skimmer and light cutouts available. Molded concrete footing line. Many sizes available to suit all of your pool building needs.

**LIFETIME WARRANTY**
