

## BLUE/BLACK™ SAFETY COVERS

Blue/Black™ Safety Covers are made in Charlotte N. C. in our 80,000 square foot manufacturing plant. We have been making covers for over 20 years and were one of the first companies to manufacture safety covers.

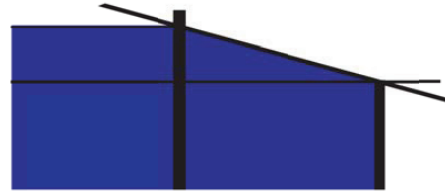

Not all safety covers are the same! Blue/Black™ Safety Covers are made from 100% Blue/Black™ polypropylene fabric. All fabrics are made in the USA. Blue/Black™ fabric has been proven to be much more UV resistant than green/black or tan/black fabric. The dyes used in the blue and black yarns are natural UV inhibitors. Blue/Black™ safety cover yarns are 40% larger than most competitors' yarns for stronger fabric strength.

We use varying fabric widths so that the cover is designed to fit the pool not to fit a grid. Fabric panels are smaller to provide maximum strength and prevent sag between straps. Covers corners are reinforced for maximum strength and safety.

All fabrics are tested routinely to meet or exceed ASTM standards for safety cover fabric. All covers meet ASTM standards for manual safety covers.

Blue/Black™ Safety Covers not only have double perimeter webbing and double thick straps but have **double webbing throughout the entire cover**. This ensures maximum strength throughout the cover.

**Blue/Black™**

All hardware is high strength 304 grade stainless steel springs. Springs are extra-large and include D buckles for maximum strength and ease of installation. Blue/Black™ safety covers use only black polyester bonded thread. Black thread is more UV resistant than white thread as it contains carbon black. Carbon Black is a natural UV inhibitor. All strapping is triple stitched to ensure super strength. Tripling stitching contains 3 times more thread than single stitching. Every cover is double inspected for stitching, quality and design features.

Blue/Black™ Safety Covers have 15 year pro-rated manufacturer's warranty. The warranty card must be signed and returned by the original purchaser. Any damage caused by nature, animals, neglect, abuse, coping wear and drag holes are not covered under the pro-rated warranty.

We hope you enjoy your safety cover for many years to come!
