THE POOL PROFESSIONALS' CHOICE

**SWIMMERS**

**SAFETY TIPS**

1. Always exercise caution and prudence when handling any pool or spa chemical.
2. Read all the instructions on any chemical labels before opening or using the product.
3. All containers should be stored in an upright position, in a cool, dry, well ventilated place and should be kept closed when not in use.
4. Unless otherwise stated explicitly in the instructions, never mix chemicals together.
5. Always add chemicals into water rather than adding water to chemicals.
6. Avoid contact with skin and eyes. Always wash hands after using chemicals.
7. Keep all chemicals away from children and animals.

## ALGAECIDES

### AQUABRITE™ QUAT 50 ALGAECIDE

Economical, non-metallic algaecide. Ideal for pool closing. Safe for use with Baquacil™.

### AQUABRITE™ SUPER ALGAEQUELL ALGAECIDE

Super strength non-foaming algaecide that kills and prevents pool algae. Effective in tough algae infestation.

### AQUABRITE™ QUAD 30 ALGAEQUELL ALGAECIDE

A non-foaming, high strength algaecide for preventing the growth of algae. Works in all pool types.

### AQUABRITE™ QUAD 60 ALGAEQUELL ALGAECIDE

A non-foaming full strength non-metallic algae preventative and maintenance for all around use in pools.

### AQUABRITE™ YELLOW QUELL

Non-metallic product used to enhance chlorine. Use on problem pools to eliminate green water and yellow scum. A non-foaming, full strength, non-metallic algae preventative and maintenance for all around use in pools.

## SHOCKING/OXIDIZERS

### AQUABRITE™ CONCENTRATED DY-CHLOR GRANULAR

99% dichlor, 56% available chlorine, granular STABILIZED chlorine, quick dissolving, no residue, pH neutral.

### AQUABRITE™ NON-CHLORINE SHOCK

Granular non-chlorine shocking compound, oxidizes contaminants that cause cloudy water. Restores water sparkle without increasing chlorine. No extended wait time to swim.

### AQUABRITE™ GRANULAR CALCIUM HYPOCHLORITE

68% or 73% available chlorine, non-stabilized. Great for shocking and killing algae. Restores water sparkle and oxidizes organic matter.

## DAILY SANITIZERS

### AQUABRITE™ CONCENTRATED DY-CHLOR GRANULAR

99% dichlor, 56% available chlorine, granular STABILIZED chlorine, quick dissolving, no residue, pH neutral.

### AQUABRITE™ CONCENTRATED 1" 99% TRICHLOR TABS

STABILIZED trichlor tabs, 90% available chlorine, when conditions require a faster erosion rate, slow dissolving, recommended for maintaining daily swimming levels of chlorine.

### AQUABRITE™ CONCENTRATED 3" 99% TRICHLOR TABS

Compressed 3" 8 ounce STABILIZED tabs 90% available chlorine, slow dissolving, recommended for maintaining daily swimming levels of chlorine, ideal for automatic chlorinators.

### AQUABRITE™ CONCENTRATED 99% TRICHLOR STICKS

Slow dissolving, STABILIZED, compressed sticks. 90% available chlorine, slow dissolving even erosion in automatic chlorinators or floaters. Recommended for maintaining daily swimming levels of chlorine.

## BALANCERS

All available in 2 lbs., 5 lbs., 15 lbs. and 25 lbs. containers and various size bags.

### AQUABRITE™ CHLORINE STABILIZER

100% cyanuric acid stabilizer for reducing chlorine loss to the sun. Also required with salt generators.

### AQUABRITE™ pH PLUS

A granular product for raising the pH of pool water.

### AQUABRITE™ pH MINUS

A granular product for slowly lowering the pH or pool water. Safer to handle and store than liquid acids.

### AQUABRITE™ ALKALINITY PLUS

A safe and easy to use granular product for raising total alkalinity in pool water. Helps prevent staining, corrosion and pH changes.

### AQUABRITE™ CALCIUM PLUS

Raises calcium hardness of pool water to aid in the prevention of corrosion, etched plaster and other problems resulting from low calcium hardness. Add directly to the deep end of pool water.

## SPECIALITY PRODUCTS

### AQUABRITE™ SUPER CLARIFIER

Super-concentrated, liquid clarifier for use in pools. Only 1 ounce per 6,000 gallons is needed to produce clear, sparkling water. 20% stronger than other leading products.

### AQUABRITE™ FOAMQUELL

Eliminates annoying foam caused by oils and algaecides in spas and pools.

### AQUABRITE™ SUPER FLOC-OUT

Non-Alum liquid floc. Quickly clears cloudy water by dropping debris to bottom of pool so it can be vacuumed out. Works overnight to restore clear water.

### AQUABRITE™ POOL-ZYME

Multi-purpose formula for removal and prevention of scum along pool surface. Quickly eliminates oils, lotion, greases, light scale and stains. Concentrated for pools and spas. Used extensively in commercial pools with high bather loads.

### AQUABRITE™ SANDSCRUBBER

Removes oils and grease from all sand filters to promote better filtration. Thoroughly cleans sand to extend sand life. Especially beneficial at end of swim season before winterization.

### AQUABRITE™ A+ STAIN REMOVER

Used for the ultimate removal of stains in all applications. Especially beneficial for stains on steps, vinyl liners, skimmers and fitting.

### AQUABRITE™ TILE AND VINYL CLEANER

Extra thick professional formula for cleaning tile and vinyl. Regular use extends liner life and beauty. Works on all pool finishes.

### AQUABRITE™ PHOSPHATE REMOVER

Eliminates phosphates from pools. Without phosphates it is impossible for algae to grow.

### AQUABRITE™ STAIN SOL

Concentrated formula for preventing scale formation and staining from iron, copper, manganese, excessive calcium. Ideal for pool start ups. Recommended maintenance for all pools.

### AQUABRITE™ METAL OUT PLUS

Professional strength formula for preventing and removing scale formation and staining from iron, copper, manganese, excessive calcium.

### AQUABRITE™ STAIN OUST

Powerful multisurface stain remover that works on difficult stains. This formula is used extensively by professional pool service companies.

### AQUABRITE™ SALT CARE

Inhibited acid system recommended for cleaning and preserving all salt cells.
