INVESTMENT PORTFOLIO FOR YOU”**

OCTO VENTURE CAPITAL

OCTO Venture Capital (OVC) was founded by Joseph Della Rossa, who brings over 20 years of experience in consistently exceeding client expectations. Now, alongside a handpicked team of financial and legal experts, Mr. Della Rossa is taking OVC to the next level. The firm is focused on becoming one of the most successful, impactful, and philanthropic real estate investment funds of its time, with a primary emphasis on three key areas: Fix & Flips, Multi-Family Units, and Commercial Triple Net properties.

Similar to stocks, real estate investing provides multiple avenues for success through various strategies. One of the most common approaches is owning a portfolio of rental properties. We offer our investors:

- ❖ We offer flexible investment options starting at \$50k, focusing on fix-and-flip projects and asset appreciation.
 - Investors have the choice of a 6-9 month timeline to cash out or reinvest their returns into a multi-family buy-and-hold portfolio, maximizing profits through dividends and shares. With dividends and shares, investors also have the opportunity to invest in company stock. Our ultimate goal is to achieve an IPO within the next 3-5 years.
- ❖ Dividends are disbursed quarterly (after 6 month initial investment period), with quarterly reports provided to investors outlining their profits and market updates/forecasts, suggested reinvestments based on their portfolio.
- ❖ Our investment strategies are customized to each investor's threshold, delivering optimal results. Lending options available .
- ❖ Our trustees are accredited accounting firm with 25 years of experience in global real estate and financial markets ensuring your investments are safe and properly allocated.
- ❖ Quality assurance is key to sustained success. Our Octo Property Management team is made up of CAMS-certified professionals who prioritize thorough due diligence and high-quality service.

A balanced investment portfolio should include both stocks and real estate. While stocks offer high return potential, their volatility increases the risk of losing principal.

Real estate, particularly cash-flowing properties like multifamily units, provides a better long-term investment strategy. These assets offer strong intrinsic value, potential appreciation in the right markets, and consistent cash flow.

Additionally, real estate has significant tax advantages, such as depreciation, which allows investors to keep more of their returns compared to stocks, even if both yield the same rate of return.
