

ClickShow 31-WB

3-in-1 Transmitter button

Silex ClickShow 3-in-1 transmitter button offers great advantages when it comes to sharing content wirelessly. It does not just offer a very easy sharing experience, but it also transmits a very smooth and high-quality video feed without the need to run any driver from the button.

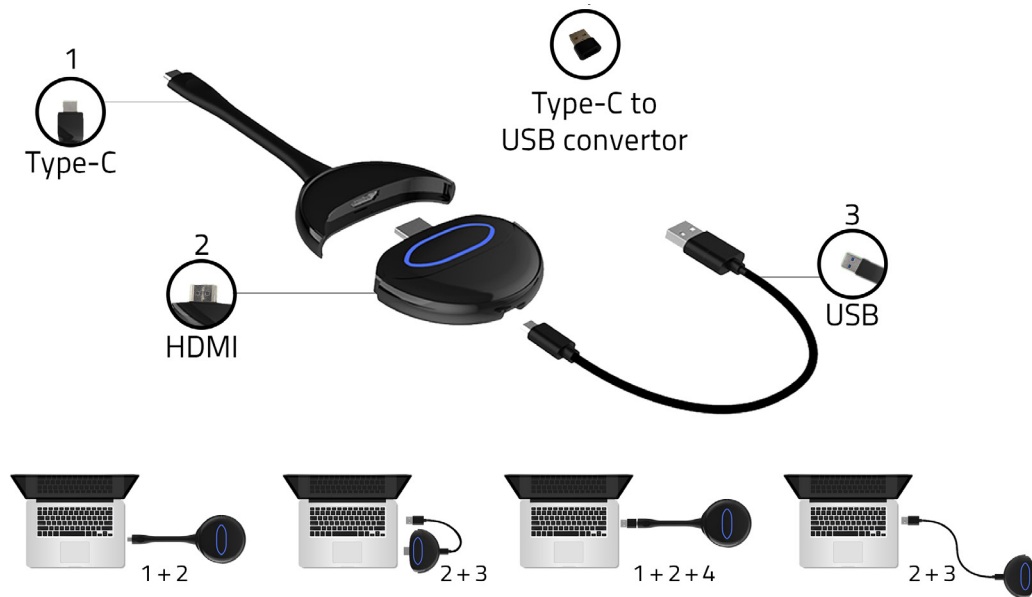

Smartly designed to offer multiple connectors options, it can simply plug into your laptop, or any device with one of the following connections: HDMI, USB Type-C and USB Type A. To share, connect the transmitter then just press the button. Your ClickShow transmitter is clientless, device agnostic and OS agnostic.

Multiple ClickShow transmitters can connect to the same ClickShow receiver unit, and depending on the receiver's model, up to 4 users can share on-screen at the same time.

Main features

- All-in-One design allowing to connect to Type-C, HDMI and USB
- Clientless: No driver installation - No CPU usage - OS agnostic
- Smooth and high-quality video sharing
- No need to power the transmitter except for some HDMI devices (powering is done using the USB cable provided)

Transmitter description and usage

Specifications

Installation	No installation, no configuration
