

## Series: PRO-HPU | Model: BV-HPU/900 Hydraulic Power Pack For Torque Wrench

BRAVO PRO-HPU-Series Electric Hydraulic Torque Wrench Pumps use German S-Class hydraulic technology suitable for industry 4.0 standards. Our three stage heavy-duty hydraulic pump provides higher oil flow and by-pass pressure, high speed oil cooler restrains overheating. Operates with a high performance silent BRUSH-LESS Technology Motor of 80Db.

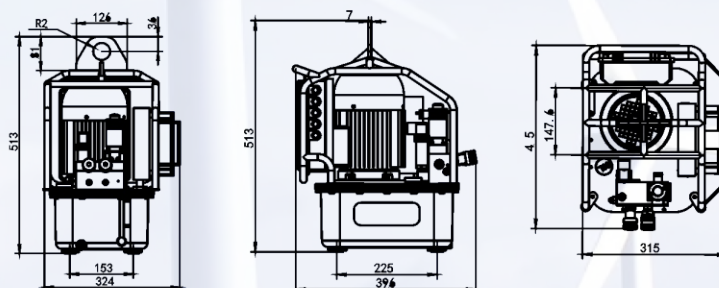

The PRO-HPU includes an analog pressure gauge and traditional electro-mechanical components (transformers, relays and switches) in place of solid state electronics. The Pro-HPU delivers reliable, safe, and efficient hydraulic power with a dual port or four ports suitable to operate two hydraulic wrenches or even four at a single set pressure.

### Features Of PRO-HPU Torque Pump

- Features German S-Class high-efficiency Three-Stage pump design for higher oil flow and bypass pressure, cooler running and requires 20% less current drawing than comparable pumps
- Powerful 1.5 hp silent BRUSH-LESS technology electric motor provides high power-to-weight ratio and excellent low-voltage operating characteristics
- PRO-HPU series is compatible to drive two hydraulic torque wrenches or four if ordered with a four port manifold.
- High-strength Titanium Aircraft Aluminium Alloy body, moulded in a composite shroud protects motor and electrical components, while providing an ergonomic, nonconductive handle for easy transport.
- High performance cooling fan starts automatically when the oil temperature exceeds 36 Degrees to ensure continuous working under full load.
- Low-voltage pendant provides additional safety for the operator.
- The embedded oil level indicator makes it very easy to check the oil levels.
- Relief valve step-less pressure adjustment range 580 - 10,152 psi / 40-700 Bar.

The Bravo Series: PRO-HPU Hydraulic Power Pack For Torque Wrench is an extra heavy-duty unit designed for continuous operation, making it well-suited for applications such as Wind Tower Installation.

Product Code	V/Hz	Output	Motor Power	LP L/min, bar	MP L/MIN,BAR	HP L/Min, Bar	Tank capacity	LXBXH in mm	Net Weight (Kgs)
BV-HPU/900-2	230V/50HZ	2-Ports	1.5HP	9L/Min @63 BAR	1.8L/Min @ 324Bar	0.9L/Min @ 700 BAR	7.65Ltrs	405x324x513mm	26.1 Kgs
