

## UVC GERMICIDAL Replacement LAMPS

Effective at reducing  
bacteria, viruses, and  
fungi from air, water  
and surfaces

### Plusrite Compact UVC PL Lamps

Plusrite Germicidal UVC Lamps are low pressure mercury arc lamps that emit radiation that peaks at a wavelength of 254nm and are lethal to microorganisms. These UVC lamps are manufactured under stringent controls that ensure a high-purity lamp with peak performance and stable output over its lifetime. They're effective at reducing bacteria, viruses and fungi from air, water and surfaces. They can be installed in numerous applications HVAC filtration systems, sterilization carts, disinfection cabinets and more.

### Application

- Deactivation of bacteria, viruses, and other micro-organisms
- Residential drinking water units
- Pond water units
- Air treatment units
- Stand-alone purifiers

# UVC GERMICIDAL REPLACEMENT LAMPS

Many different types and sizes are available. Please consult the product specification for each individual lamp as output, efficacy and dimensions vary per lamp.

## SCREW BASE LOW PRESSURE MERCURY LAMPS

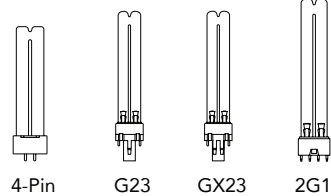

The screw-in base UV-C lamps are ideal for disinfection cabinets, HVAC systems and other air purification technology. This type of solution is used everywhere from residential homes, restaurants, offices and hotels.

Medium Screw (E26)

## LOW PRESSURE PL-TYPE MERCURY LAMPS

These UV-C lamps come in 4 different compact, pin-based, PL styles and fit many popular OEM disinfection and purification devices.
