## Highlights

A strong vocalist and guitarist and confident on the mic, I have an extensive repertoire always peak performance with fun and engaging sets. Not to mention all the sing-along and dancing with the occasional spontaneous medleys and mashups with other musicians on contracts!

Two headliner shows, one Ed Sheeran Tribute that features the Loop Pedal and the second requiring the house band orchestra for my own show, 'Inspirations' (which are both available on YouTube).

With both acoustic and electric sets for any occasion, catering to most audiences, notably Princess Cruises have selected me for their flagship, the newest ships and more recently a world cruise.
