

ROOM-IDENTITY PACKAGE

When buyers are looking at properties to buy, they need to be able to visualise themselves living there. However, sometimes rooms have lost their identity, and need to be re-instated as a bedroom, or turning an extremely small bedroom into an office space, to help maximise the appeal of that property for potential buyers.

If your client has a room that is lacking it's original identity, from £150 (ex VAT) we can furnish these rooms, and turn them into identifiable, sellable spaces.

How it works:

We would consult with the client, agree what the room needs changing back into (e.g. a bedroom) and provide a quote. Once payment has been received, we'll arrange a 'stage' date to provide and style our items on a rental basis, to transform that room back into a stylish, welcoming space. After the rental period of six weeks, we would come back to remove all the items.
