

# PICTURE THIS PACKAGE

If the property is furnished, but you want a little helping hand to make the listing pictures jump out at buyers. This package, which starts at £250 (ex VAT), is what you need. It includes tidying, a light clean (if necessary), de-cluttering, arranging and styling items ready to be photographed by a professional property photographer. We can even rent our own accessories to make more impact.

## **How it works:**

Following an online or in person site visit, a date will be arranged for our team to enter the property ahead of the photographer. They will de-clutter, de-personalise and to add wow to the space through arranging the property's existing items, or our own. The professional property photographer will arrive to capture each room looking its best. After the rental period, six weeks, we would come back to remove our rental items.
