Publish Date: May 5th, 2023

Brent is the Chief Administrative Officer for a fast-growing civil engineering and project management firm. He is a solution-oriented, organized, and well-rounded individual with concentrated skills in accounting, finance, and business administration. Respected by peers and colleagues as a strong ethical example in the workplace. Long-term professional goal is to be a strategic leader in a creative environment that solves problems and provides value added solutions to the marketplace.
