

TEOREMA A

AUTO STEAM MILK4 Tall cup Version

A/2 **B0210H9BTDDGA**

A/3 **B0310H9BTDDGA**

Automatic espresso coffee machine equipped with a micro-processor for an easy programming of coffee and hot water dosage. Specifically designed to accommodate tall cups or glasses (max cup height 5.5 in / 14 cm).

Adjustable thermal balancing system (patented).

The boiler is equipped with the patented Smart Boiler system and it is insulated with a special material that reduces heat loss for a daily energy savings of 24% (according to DIN 18873-2 parameters).

1 standard steam wand + 1 Auto Steam Milk4 for milk frothing and heating without manual intervention (for 4 different milk cream quantities).

1 hot water wand (dosed delivery).

Advanced electronics: When equipped with the special kit supplied with the Wireless grinder-doser, the machine connects via Bluetooth with the grinder-doser itself to report any adjustments of the grinding and dose which are performed automatically.

USB port to update the machine's software, download data and / or configuration of the recipes via USB.

Green machine: last generation eco-technological solutions thought to conjugate energy saving and environmental respect.
