We are a family managed and owned Wedding Planning Company based in Paphos, Cyprus providing clients with a dedicated Bespoke Wedding Planning Service,

We understand that this is going to be one of the most important days of your life and to enjoy the experience as much as possible, the last thing you need to be feeling is stressed and worried. We provide all the services you need to make your dream wedding a reality. We work with clients on an individual basis attentively from concept through to design and delivery to produce Signature Dream Weddings

We pride ourselves on delivering our Brides & Grooms with worry free Wedding Planning, Affordable, Personalised Wedding Packages, Wedding Coordination Services, Wedding Décor and so much more. We are totally dedicated to planning your wedding seven days a week, twenty-four hours a day, Spring, Summer, Autumn and Winter and will always take care of you, renowned for our 'Above and Beyond' approach, testament from past and current clients and our outstanding reviews!

Choosing a planner is like looking for a new best friend! Not only a MUST to be organised and meticulous with detail for planning, but to be creative, a good listener, wonderful negotiator and without question, professional BUT also someone you can trust, someone you can talk too and most of all someone who will work as hard as you would for a perfect day! At Marry Me Cyprus we do just that! Having built a wonderful relationship with some brilliant

suppliers, not only that are among the best on the island but alike with some incredible prices let me help you take the worry out of 'where to start' .

Working independently we are not 'tied' to recommending one venue over another so we can book a venue of your choice, put together an array of venues suited to your enquiries or detail our extensive list of venues with links for you to 'view' including some hidden gems that you may not have found!

We always welcome you to visit Cyprus for a few days before you finalise which venue and put together a planning itinerary to include everything you may need, to meet with the suppliers, to choose the 'finishing touches' and to sample the delicious food for your day topped by Wedding Cake Tasting! Whilst some people may not get this opportunity, rest assured with modern technology we can Skype and FaceTime and visit venues on your behalf without compromising any choices and decisions.

Whether you only need our expertise and professional assistance to book your venue and assistance with the Town Hall detailed with formal confirmation of your wedding or a fully managed service from start to finish to piece together your dream day, Marry Me Cyprus would LOVE to help you.

Personal Wedding Planners.

it is daunting but let us guide you through the process as your

First Things First; you need to choose a Wedding Date!

Wedding Date

When you start wedding planning is totally up to you. It could be days, weeks or months after the proposal; every couples wedding plans will be different. But the main thing to consider at this early stage is when you want to get married and with a Destination Wedding the time provided to your guests, to give them as much notice as possible for their travel requirements. With Destination Weddings we see our clients book generally 2 years in advance, but some can be as little as 6 weeks notice (where we have availabilty) and some as long as 4 years, to save the date for a sought after venue. One major thing to consider here is that wedding vendors (often the best ones) book up way in advance, so although it might feel like you have loads of time ahead of you, if you have a certain destination wedding venue in mind or you cant imagine another professional photographer shooting your day other than the one you've been stalking on Instagram for the last 12 months, then why wait? It's definitely the wedding venues and the top wedding photographer in the area that gets booked up fast, especially on School Holidays & Weekends, so there's no harm in kicking off your research early. But only for the suppliers you are 100% certain about.

The same applies when it comes to the size of your wedding. If your dream is a romantic elopement abroad, there's no denying this is going to take a lot less time to plan and probably cost a lot less money in comparison to a 3-day weekend wedding for 150 guests, for example. The best thing you can do though, regardless of your wedding aspirations, is get started. Draft up your wedding guest list so you at least have a rough idea of numbers.

Budget & Financials

Another super important early wedding planning task is to work out your budget because this will ultimately determine the majority of the plans and decisions surrounding your big day. You've likely had a bit of a rough head count of potential guests (see above!), but this figure is another key factor in relation to your wedding size, style and cost. At this stage, these numbers dont have to be set in stone, but starting out with a clear figure will help when planning all elements of your wedding day and the venues to choose from. It also allows you to set your budgets and forecasts and answer the question; 'Can you afford to buy those designer shoes?'... of course you can! That's why we are here to help!

Your planning timeline could end up having a big impact on how long you have to save money ahead of the big day. Start by adding up your savings, and if you have family members who would like to contribute to the day, ask them how much this might be. Finally, work out how much money you can realistically save during the wedding planning process, from the time you get engaged up until the wedding day. This will help you come to a (rough) final wedding budget which will help when it comes to working out how much you want to put towards the venue, , the photographer, the bridal party outfits etc. Wed always recommend keeping 10-15% of your final budget to one side for contingencies because no matter how well you plan, costs can often end up creeping up unexpectedly.

Independent Wedding Planning S

With a wedding taking on average 18 -24 months to plan and it being one of the most stressful events in your life to piece together, it isn't a surprise that brides and husbands to be are turning to industry professionals for help, more so when your wedding venue is 2000 miles from your home, yet a place we call Home!

This is where an Independent Wedding Planner could be your saving grace.

We are renowned to know not just the industry inside out, but the choices and selections to maximise your day, minimise wasting money and to allow you reductions on the service charge rates with suppliers with our discounts at Marry Me Cyprus.

We have had the priviledge of working with the very best of the best! Our suppliers are our team! As we guide you through the Planning Stages you will be introduced to them and make your own selections. We are proud to collaborate with the Best Suppliers, with a range of prices, without compromising on quality or delivery. We also understand that your choice may be different to ours, so that's why we allow you to make the selections! We are renowned as one of the only Wedding Planning Companies to do this and pride ourselves on delivering YOUR wedding and YOUR choices.

With our professional skills, attention to detail, local knowledge & reputation within the industry, we can assure you of a magical day, taking away any complications and delivering a flawless finish and day for you to remember forever! With all of our packages, we will ensure that all of our clients are provided with full assistance to the legal requirements for your Wedding Day Licence, Pre Arrival Checks on your Application, Assisted Attendance to the Town Hall in Cyprus and unlimited advice and assistance with any questions or enquiries throughout the entirety of the process. Let us manage the red tapes, the running around and planning for you, giving you peace of mind, a detailed wedding plan, wedding day itinerary and a countdown calendar until you arrive, where we will meet with you in Cyprus and provide the finishing touches!

We are professionals who will set realistic expectations and keep your wedding running to a tight schedule without you even noticing! We are, in addition, incredibly creative but also super practical, so whilst you might find the prospect of planning your wedding a scary prospect, this is our speciality, where many of our previous Brides have left us 5* reviews to make you choosing
